MEGA MONSTER MUNCH

PLUS!

5 MEGA-CD 2S AND 20 CASES OF MEGA MONSTER MUNCH TO BE WON!

MEAN MACHINES SEGA

5 MEGA-CD 2S AND 20 CASES OF MEGA MONSTER MUNCH TO BE WON!

In a shop near you are the all-new, great tasting Flamin' Hot Mega Monster Munch from Walkers Smiths Snack Foods, guaranteed to satisfy the biggest of appetites, and perfect for those mid-level hunger pangs. However, as you would expect of Britain's best-selling Sega magazine, we are proud to tempt your taste buds with a FREE sample of these mega snacks. Each bulky bag contains a whopping 40g of snacks for a mere 30p, and comes in a funky foil package, making them one of the best value snacks on the street.

The freebies don't end there, though. To celebrate the launch of Mega Monster Munch, Walker Smiths Snack Foods are offering MEAN MACHINES SEGA readers the chance to win one of five Mega-CD 2 units and one of 20 cases of Mega Monster Munch. With 30 packs in each case, they should keep you going for a while! So how do you get your hands on one of these excellent prizes? Easy, just answer the following questions and complete the tie-breaker, send it in to the address below and we'll do the rest...

THE QUESTIONS:

1 **What flavour are new Mega Monster Munch?**

A. Flippin' Toasty
B. Flamin' Hot
C. Blinkin' Boiling

2 **Which of the following is NOT a Mega-CD game?**

A. Road Avenger
B. Street Fighter 2: CE
C. Ecco The Dolphin

THE TIE-BREAKER
(Complete in less than 10 words)

Mega Monster Munch and the Mega-CD 2 are the perfect match because_____

NAME _____

ADRESS _____

AGE ___
SIGNATURE OF ADULT
(IF UNDER 16) _____

Done that? Good, now put your answer form in an envelope and send it to:

MEAN MACHINES
MEGA MONSTER MUNCH COMPO,
Priory Court,
30-32 Farringdon Lane,
London,
EC1R 3AU

RULES AND CONDITIONS:

Only applicable to UK residents. All entries must be received by 28/9/94. Entries must be on the answer form provided, and signed by parent if entrant is under 16 years-old. Prizes will be awarded to the 25 entrants who answer the question correctly and, in the judges opinion, complete the tie-breaker in the most apt and original way. The judges' decision is final. No correspondence will be entered into. Winners will be notified by post by 14/10/94. The names and counties of the winners will be made available after 14/10/94 to those enclosing a SAE marked "MEGA MONSTER MUNCH COMPO." Proof of posting will not be accepted as proof of delivery. No cash alternative will be offered. No members of EMAP Images or Walkers Smiths Snack Foods Ltd. may enter. The winning entries and names and counties may be used for PR purposes.

COMEDY DINGBATS MESSAGE

STEVE

There's a lot of pessimism regarding the console industry at the mo, with every Tom, Dick-head and Harry all-too keen to dismiss it as a fad waiting to end. I have but one message for all these moaning minnies: you're talking crap. I'm in a very priviliged position where I get to see all the latest releases and machines first, and from this handy vantage point, I can see a very bright future indeed. The Megadrive has loads more mileage in it, as the likes of Earthworm Jim, MKII, and Mickey Mania prove, and the 32X is quite simply stunning. If there is one thing holding us back, it is these self some whingers spouting on as if they were the most informed people on earth. Whether they like it or not, video games are here to stay and are now as much a part of our culture as videos and music — I mean, if newspapers are jumping on the bandwagon, they're not likely to do it if they can't sell a few more issues are they? Let's face it, an hour or two on SSF II or whatever tokes your fancy is as good a way to pass the time as any — and if your mates are busy dismissing games as old hat, plonk 'em down in front of some of your faves, and just watch the results. Video games are far from dead, so don't let anyone pronounce them so just yet...
Blimey, that was nearly topical. Er, I'm off for a lie down.

BLACKPOOL POWER!

SONY ELECTRONIC PUBLISHING

Remember we said we would be in Blackpool next month giving out free Sony games! Well we did! Actually, that's a lie, as the way the deadline of the issue has fallen, we're actually going up tomorrow. But Mystic Reg has already told us we had a fabulous time, and who are we to argue. After Gus slummed it alone in Brighton, Steve agreed to keep him company at Blackers, on the condition they stayed in a swank hotel, and spent the entire company profits in the Pleasure Beach (while pretending to be pursuing some 'reader interaction'). If you were lucky enough to profit by one of our prizes, congratulations. The rest of you suckers remember it pays to read MEAN MACHINES, and keep your eyes peeled. Next month 'Two go to Clacton' on Saturday, September the 10th. They'll be on the pier in the 'savvo' for the biggest give-away so far! I can smell the chips already...

SADLY UNFUNNY PHOTO

Someone sent us this rather poorly set-up humorous snapshot. It's an example of how not to get a picture printed in MEAN MACHINES. Let this be a lesson to you all.

RIAL

STRIP TEASE

It's very rare that a work of genius enters the office, but the adventures of X-head could hardly be called anything else. Mercilessly lampooning a certain 'on-line' games 'information' service, Captain Jupiter's work demands to be seen in all its glory. Keep 'em coming, cap'n!

THE A TEAM

There's nothing like buying your first record. We look back to what was top of the pops when the team lost their musical naivety.

STEVE MERRETT

It was a heart-wrenching moment for Steve as he revealed to the assembled crowd that his first vinyl acquisition was 'Kool in the Kaftan', by B A Robertson (uncool early Eighties scot muso). Steve tried to justify his choice by informing us that it was B A who penned the highly esteemed 'Wogan' signature tune. Thus, thanks to B A, an entire nation of innocent TV viewers were given 30 seconds advence warning to change channel.

FAVE GAMES: MK II, Earthworm Jim

LUCY HICKMAN

It seems that our Lucy foresaw the Japanese console invasion by picking out 'Turning Japanese' by The Vapours. At the tender age of 9, a trip to Woolies saw her contribution to the band's success. These days, it's not uncommon to witness the arrival of Ms Hickman clad in a red silky kimono in readiness for the day ahead, armed with a few raw fish to chomp on.

FAVE GAMES: Urban Strike, Zero Tolerance, Earthworm Jim

OZ BROWNE

Our resident Funkmeister, Oz certainly keeps the rest of the team in check when it comes to grooving tunes. Oz didn't really get into the record buying scene until late., and his first buy was Arethe Franklin's 'Who's Zooming Who?' Still, anything has to be better than his crooning to the Lion King soundtrack.

FAVE GAMES: Mortal Kombat II, Alien 3

ANGUS SWAN

Never knowingly outstyled, Gus kicked off his trend setting from day one with his record collection precariously based on top of 'Double Dutch' by Malcolm McClaren. But the truth will out, and after a heavy dose of unspeakable gaming torture (Pete), he finally revealed his cool purchase was out from his own money. He'd received a free voucher with a new pair of Clark's Commandos and traded it in. Actually, it's about time he bought some new shoes.

FAVE GAMES: Ballz, Bubble and Squeak

CLAIRE COULTHARD

Under Claire's demure facade lurks a passion unknown to the rest of the crew. For Claire is an undying Leo Sayer fan. In fact, she is so dedicated to her pop idol, it almost brought tears to her eyes as she recollected the immortal moment of buying her first Leo 7". "I remember as a lass, hassling me Mum and Dad to drive t'village to buy the single after'd seen him on TOTP. He's gorgeous". And the single in question, 'When I Need You'. Aaarrgh!

FAVE GAMES: Bubble and Squeak, Earthworm Jim

PAUL BUFTON

Back in the heady days of break dancing, Paul reveals he was a bit of a body popper. Reassuringly, he points out this activity never involved pieces of lino outside the local Asda. Instead, a more private substitute was the kitchen floor. It wasn't the inconvenience of not being able to get near the fridge that annoyed his Mum, but the constant repetitious beats of 'Hey You!', by the Rock Steady Crew, his first and most treasured single.

FAVE GAMES: Earthworm Jim, Zero Tolerance

NEWS

- NEW FILM
- BY CAPCOM

STREET FIGHTER MOVIE — FIRST S

Cop a load of these! Shown on these very pages are the first film stills to emerge from the Australian set of the new Street Fighter movie! With Jean-Claude Van Damme popping his pecs as Guile, and ably (?) assisted by Kylie Minogue as Cammy, our heroes are locked in battle against the eternally-evil M. Bison and his many minions. The film is set in present-day Shadaloo in South-East Asia, a place devastated after seven months of civil war. As the battle escalates, the world is on the edge of global war as General M. Bison (played by Raul Julia — Gomez in The Addams Family) strengthens his evil cause by kidnapping a party of relief workers. With the $20 billion he is demanding for their release, he plans to expand his army and drive through his plans for world domination. Having given the authorities 72 hours to concede, the world awaits its fate.

In a last-ditch attempt to defeat Bison's plans, Colonel William F. Guile is ordered to locate and infiltrate Bison's secret base, and free the hostages using whatever means he deems necessary. Enrolling his intelligence officer, Cammy, and two fallen hero street fighters, Ken Masters and Ryu Hoshi, a plan is hatched to infiltrate Bison's domain. As Guile's team is assembled, Global News' chief reporter, Chun-Li and her assistant, Honda, are there to cover the story — although her innocent looks prove deceptive.

Guile's plan involves the team attempting to infiltrate the notorious Shadaloo Tong masterminded by known Bison consort, Viktor Sagat. As the plans comes together, we are promised more scraps than a bacon factory, and a host of other recognisable Street Fighter heroes as the plot unfolds. With a PG rating, Capcom are hoping the film will hit the UK's silver screens in time for Christmas. It looks like it will be a Street Fighting new year.

ER

HOTS!

MEGA BOMBERMAN! IT'S ON ITS WAY!

After months of gossip and speculation, we can finally reveal that Hudsonsoft's superb Mega Bomberman is about to hit the Megadrive! Sega have confirmed the game for a November release, and even better — are hoping to release the 8MEG cart for a paltry £35.

Mega Bomberman is a mixture of the original PC Engine game and Virgin's forthcoming Super NES sequel. Having selected your hero from the cast available, the game can be played either as a progressive puzzler or as a frenetic four-player game. In the former, the player is left to destroy a series of metallic turrets which allow Bomberman access to a tower holding a missing piece of a magical locket. The locket is then assembled on a mosaic room, unleashing some horrendous bosses. The multi-player game, on the other hand, is more arcade orientated, with the players collecting as many power ups as possible in order to lay complex traps to kill their opponents. All the usual Bomberman goodies are there, including multi bombs, the ability to kick bombs, and devices to extend their range. However, one rather neat new addition, are a series of cuddly kangaroos which effectively double Bomberman's lifespan and also allow him to jump, kick blocks, and run faster.

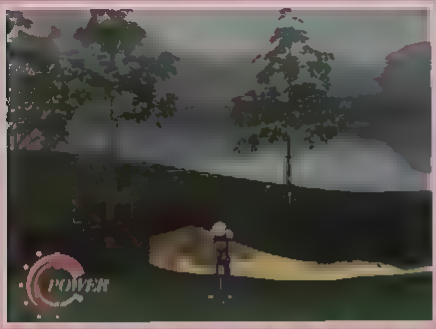
A full review will appear next issue, so stay tuned for the definite review ..

YOU DON'T SAY...

duties.

'Til next month,

Pip Pip



CORE TEE-OFF ON SATURN

- NEW GAME
- BY SEGA
- MEGADRIVE

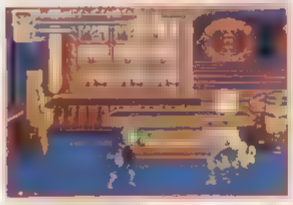
Always one to jump on the new machine bandwagon Core Design are aiming to bring all the thrills spills and silly trousers to the 32X and Saturn as they unveil Tee-Off, an ultra-realistic golf game Using real maps for the courses, and a mixture of vectors and bitmaps for the courses, Core aim to make Tee Off the 32bit golfing benchmark As of yet the game only exists as one short hole, with the Saturn version looking considerably more detailed with more backdrops and ground detail However we know you're all excited about new 32bit games, so here's a real, live screen shot to tide you over until the full preview appears

PUNISH ME GENTLY

- NEW GAME
- BY CAPCOM
- MEGADRIVE

He's big, he's tough, we've seen him in the buff Or something Anyway, it's the Punisher, he's very, very hard and he's coming to a Megadrive near you soon so be very, very frightened He's not your run of the mill superhero — he doesn't wear tights,

and he's got super-powerful weapons and combat skills Converted from the Capcom coin-op, The Punisher has our eponymous hero joining forces with another Marvel Comic marvel Nick Fury — as they blast their way from here to kingdom come Shoot first, ask questions later, that's their motto and they don't just rely on the fantastic weaponry that's up for grabs, as they're pretty good with their bare hands Looks good, more later



TENGEN GET INTO A RAGE

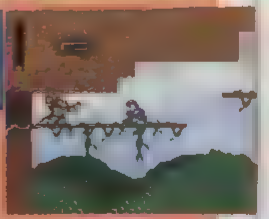
- NEW GAME
- BY TENGEN
- MEGADRIVE

Already being touted as 1995's answer to MKII, Primal Rage is a rather smart coin-op starring a series of battling dinosaurs — and Tengen are rather pleased to announce they'll be converting it to assorted Sega systems late next year Primal Rage is a one-on-one scrappathon, with the mighty beasts using their tails and special moves to proceed to the next bout, with digitised animations giving the game a real B-movie look Tengen are also overseeing the coin-op's production, so are hoping to ensure the resultant conversions are as close as possible There are no concrete detail regarding the game's release date or developers, but we'll be exclusively unveiling this monster of a beat 'em up as soon as there's something to see

▼ *Not yer average New Age Traveller.*

MEGA MEGAMAN

- NEW GAME
- BY CAPCOM
- MEGADRIVE



The Megaman games are some of the best selling console titles ever with over 2 million of them flying off the shelves to date Now, as mentioned, those mega Megaman games are coming to the Megadrive courtesy of Capcom A though a European release has not yet been finalised, Megaman The Wily Wars sounds like a corker It's a compilation pack with enhanced versions of MegaMan I II and III packed onto one cart Capcom have spruced up the games in all departments and included a new bonus section and all-new bosses Gosh More news when we get it

CD SHODOWN

- NEW GAME
- BY JVC
- MEGA-CD

Following last month's news of a Megadrive conversion of Samurai Shodown, JVC have confirmed they are set to release a Mega-CD version in the UK early next year. According to the chaps at JVC, the Mega-CD version is almost identical to the coin-op, with all the original's scaling and massive sprites surviving the transition. Samurai Shodown should be heading for a February release alongside a Mega-CD conversion of Fatal Fury Special, both of which we'll be investigating next issue.

FOX DIE HARDEST

- NEW GAME
- BY FOX
- 32X

MORTAL II FOR THE MASTER SYSTEM!

YES! YES! YES! Master System owners all over the world should start to rejoice, as Acclaim have committed themselves to producing a version of MKII for your machines. Once again, Probe are handling the programming chores, and it should be an almost identical conversion of the brilliant Game Gear version, we'll have a full review in our very next issue, so we will.

- NEW GAME
- BY ACCLAIM
- MASTER SYSTEM

OCEAN SIGN CANTONA AND CO!

- NEW GAME
- BY OCEAN
- MEGADRIVE

Fans of messrs Eric "Dirty, Foulin' Git" Cantona, Ryan Giggs and "Sparky" [illegible] [illegible] to learn that Ocean are preparing a footy game based on these [illegible] and the team they play for, Manchester United. According to [illegible] the game will be seen from one or two viewpoints, either a FIFA-style isometric slant or the [illegible] eye view [illegible] on the [illegible] and the Manchester [illegible] appear [illegible] which [illegible] will probably [illegible] at the top of the [illegible] Sega.

SOULSTAR

In addition to Tee-Off Core's plans for 32X domination now include conversions of both Soulstar and BC Racers. Both games are currently being expanded for the Sega plug-in, with Soulstar set to benefit from considerably faster 3D effects and a handful of new levels and bosses. Similarly Core's plans for a 32X BC Racers will include a select on of new characters, the possibility of a split-screen two-player mode and extra courses and hazards. There's nowt to see of either conversion at the moment but Core are hoping for their dynamic duo to be ready for February next year.

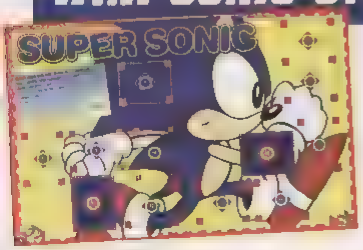
WIN! SONIC STICKER GOODIES!



To celebrate the imminent launch of their Sonic sticker collection, Panini have given us 200 ALBUMS to give away. What's more, each of the winners will also receive 5 packs of stickers to start their collection!

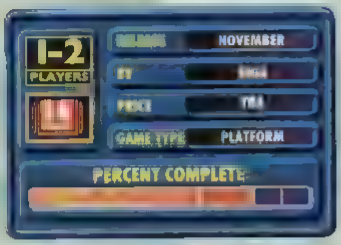
The stickers follow everyone's favourite blue hedgehog's adventures, and when complete make a fully illustrated history of his plentiful escapades. To win one of the 300 album sets, just answer the following question. Name Sonic's pink adversary in Sonic 3.

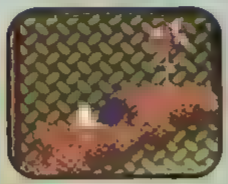
Having done that, send your entry to STICK 'EM UP COMPO, at the using MEAN MACHINES SEGA address.

GET THIS...

...LOW LIFE SCUM

SONIC &





See this bit, well it hasn't really changed that much.

There are few things in gaming as intriguing as a new Sonic game, especially when it looks as luscious as this. Britain's best loved unstoppable games animal gave a frank preview to MEAN MACHINES of what's to come.

The company known as Sega must scour the book of mammals looking for unlikely creatures when adopting a new video games hero. Take Sonic, 'needlemouse' (common or garden hedgehog, if you will). Not noted as the fastest or feistiest of animals in nature. In fact not even noted in Japan at all, since it's indigenous to Europe. After a stint with the Japanese image-makers, the timid drinks-milk-from-saucers-and-gets-flattened image was dropped in favour of being the world's fastest video games superhero. But after three Megadrive outings, the 'living dangerously' tag is getting a tad familiar. So the success of one spiky quadruped has evolved into another, Sonic's enemy turned mate, Knuckles.

Knuckles, for those who missed Sonic 3 early this year, is an Echidna. When that's at home (home being Australia, New Guinea and that general neck of the rainforest), an Echidna is a marsupial, a strange hedgehog-like mammal with spines, a long snout used to eat ants (its main diet), and an inquisitive nature. It's several times bigger than a hedgehog. But in the game, Knuckles is much the same size, pink instead of dirty brown, and doesn't eat any ants.

Sonic fans should not be misled into thinking that Knuckles is just another stunt friend in the way Tails seems to have been. The naive little fox seems to have suffered at the hands of Sega's fickle affections. He was 'in' for 2, 'out' for CD, played a supporting role in 3, and has had the bum's rush for Sonic and Knuckles. But in the latest game you can play specifically as Knuckles, and the character has impressive abilities of his own. In fact, he even seems to have an edge over Sonic in the muscle department. Perhaps Sega haven't considered the ultimate nightmare — young Knuckles arrives as modest unknown co-star, then by his brilliant performance begins to take over the career of the established starlet, just like what happened to Bette Davis in 'All About Eve'. Knuckles the Echidna 4? It could yet happen ..

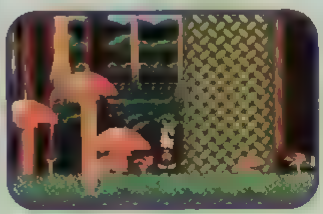
DON'T TURN AROUND

Sonic and Knuckles is a further example of Sega's taste for innovation in the last year, as a means of keeping gamers' interest alive. After the SVP used in Virtual Racing, and the arrival of 24MEG carts comes the plug-through connector on Sonic and Knuckles, allowing you to explore new effects on previous Sonic games.

The idea of the game being 'backwardly compatible' goes back to Sonic 3, when there was a fair amount of confusion as to three secret levels, plug-in carts and the like. At that time, rumours abounded of a deluxe Sonic 3 cart, supposedly of 32MEG size, which would feature an extended version of the game. Not surprisingly, this would have miffed the many Megadrive owners who could only afford the standard edition. Perhaps wisely, the idea never

LOSING THE PLOT

You could be forgiven for losing the story with concern to Sonic, Robotnik and just how exactly Knuckles fits in. In '2', Tails and Sonic confronted Robotnik on the Sky Fortress, to retrieve the Chaos Emeralds of Moebius. After successfully retrieving them, the pair escaped on their trusty bi-plane. Landing on a nearby tropical island, they find Robotnik has also escaped the wrecked fortress, and recruited Knuckles, by deception it turns out

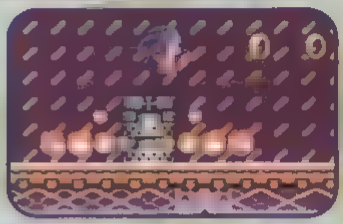


KNUCKLES

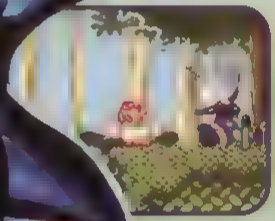
come to fruition, but players who accessed the level select found evidence of three of the zones that are part of Sonic and Knuckles Mushroom Hill, Sandopolis and Flying Fortress.

Sega are stressing the fact that Sonic and Knuckles is a stand-alone game in its own right, and not just an enhancement for previous Sonic games. Nevertheless most potential buyers will anticipate the feature that allows you to plug in Sonic 2 and 3 and play as Knuckles, adding a whole new dimension to gameplay, by virtue of his special powers.

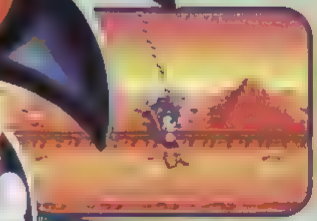
And another thing! With Sonic 3 specifically, the game opens up new levels in addition to those of the stand-alone game. The precise nature of these is not yet known. Sadly no new levels are offered on the other two Sonic games.

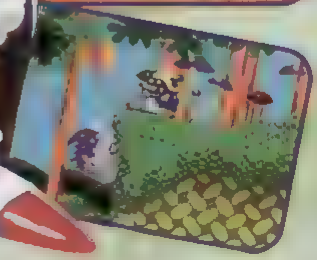


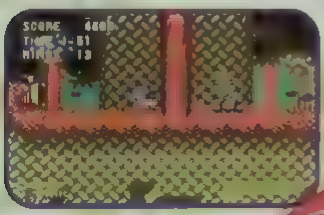
Remember kids, never play with large gas cookers



After a scuffle, the emeralds are lost throughout the island, and Sonic has to face both opponents, before defeating Robotnik in his airborne Death Egg contraption again. Now, the Sonic and Knuckles plot begins, as Robotnik's contraption falls to the island, settling on the crater of the volcano. The chaos emeralds are once again lost. But an element of mystery surrounds the relationship of Sonic and Knuckles. Playing as Sonic, you occasionally require the assistance of the Echidna, who duly turns up to open doors, etc. But is he really on your side?







THE NEW WORLD

A glimpse of some of the new worlds that make up Sonic and Knuckles. We also detail some of the interesting effects and features we found on each. How charming they look:

BITCH OR BUTCH?

Knuckles brings a new set of moves to Sonic gameplay, which changes the game scenario significantly. For example, playing the first level as Sonic requires the assistance of Knuckles at an important switch, which the Echidna can just bomb through himself. Played in conjunction with Sonic 2 and 3, the extra powers will open up new areas of layout.

CLIMBING

Sheer faces which would normally be impassable now provide handholds for Knuckles. He can even jump from wall to wall. However, the technique is slow and leaves him vulnerable.

FLYING

By holding down the B button, Knuckles changes his mid-air trajectory, allowing him to glide to earth. It makes him more controllable in the air, and better equipped to take out adversaries.

BASHING

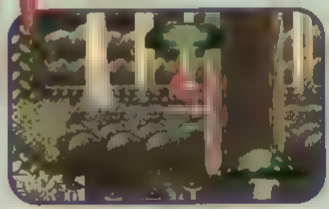
Some impenetrable landscape features, like stone blocks, can now be destroyed with a quick burst of Knuckles' speed.

MUSHROOM HILL

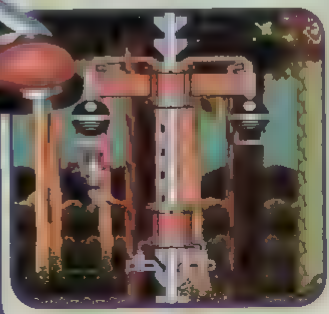
The first zone split into two stages, that soon make you realise the game isn't going to be a pushover. Grassy knolls, long-stemmed grasses and the bouncy, spotted toadstools that give the level its title and character. The familiar Sonic runways are formed by larger than life foliage.

PARACHUTE

Sail gently to terra firma on these redcap parachutes, allowing you to travel to inaccessible mid-air areas.

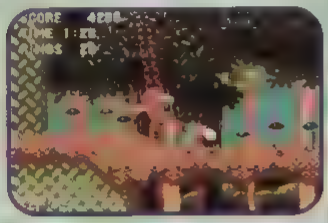


This odd, double handled lifting device works a bit like a zip fastener or car jack, allowing Sonic to reach higher levels, but taking time.



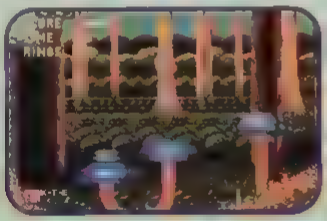
ELASTIC SNARE

A new feature, which must use some lovely inertia programming routines. Passing this trap activates one or both bungee snares that hinder Sonic or Knuckles until they spin free.



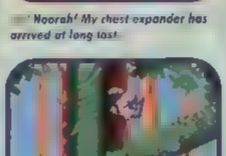
MUSHROOM [illegible]

The old comedy classic, beloved of many a Warner cartoon. Jumping on one end propels the weight, which in turn propels you to new heights.

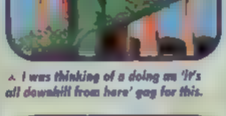


[illegible]

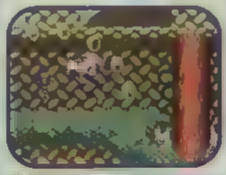
These were featured in Sonic 3's underwater zone, giving Sonic something to grip. Now they're revamped to appear in other zones, and Sonic now swings around them for extra momentum.



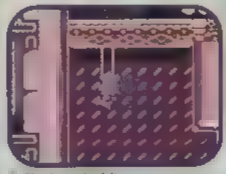
Hoorah! My chest expander has arrived at long last.



I was thinking of a doing an 'It's all downhill from here' gag for this.



Dunk Towers and his collection of comedy banana skins.



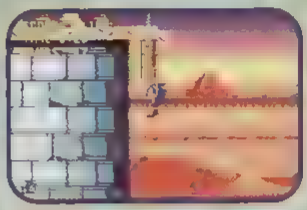
The Great Sonici's trapeze career was never destined to last long.

SANDOPOLIS

Ancient Egypt is the inspiration for this two-part zone, a rollicking and rather fast combination of sand-dancing, Indiana Jones-style rope-swinging and archeological exploring (part of the section takes place in Pyramid constructions). The dune and sunset parallax backdrops look stunning.

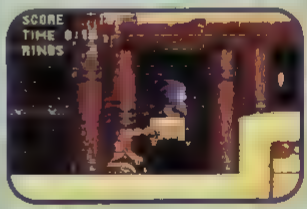
[illegible]OSEILING

Perhaps dangling is the best description for this feature, as neat animation shows Sonic spinning in three dimensions as he descends through the ruins.



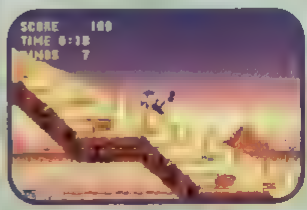
SCORPION TANKS

Anyone familiar with British Forces' armoury will appreciate the visual pun of these contraptions, and their block carrying abilities may be utilised.



SAND SLIDE

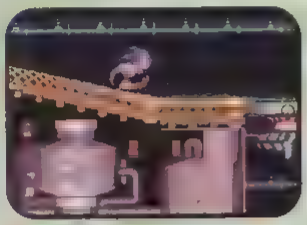
Lose your footing and either of the duo could find themselves sliding to oblivion. Undeniably fun, but carries a health warning.



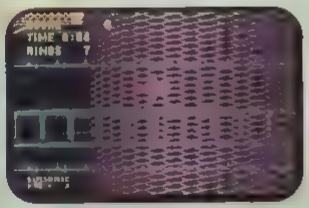
FLYING FORTRESS

What our pics fail to show is the massive extent of Robotnik's floating metallic monster of an airship. The theme for this level is fire and steel, a lot of both.

FLAME THROWER
Looking all the world like the flame bar on an upright gas cooker, these areas threaten chargrilled hedgehog, unless you tear across them at the right time



TUBES
Reminiscent of the tubes on Sonic 3 carnival zones, these rotating cylinders produce a delightful sensation of motion, and a hell of a lot of velocity



[illegible]
Identical to the bit on the Gladiators Eliminator, where Sonic shows off his biceps for the first time ever

ENGINE OF ORDER

It will not take long to notice that the Sonic and Knuckles 'engine' is the same as that of Sonic 3. The engine is the programming system used to piece the game together, and it produces the general graphical and aural presentation, gameplay feel, and style of the game. Re-using game engines is a common thing, EA do it regularly with their sports range updates. Sonic 3's engine was different to that of one or two, being put together by STI (Sonic Team). The size of sprites and backgrounds were noticeably increased, and levels were structured to have more height as well as larger width, making for more exploration. Sonic 3 also had a 'theme park' feel, with various contraptions fitted into the landscape, which affected Sonic's control or gave a great burst of speed

In all these elements, Sonic and Knuckles does look like a close relative of its predecessor, but this is not to say it's not an all-new game. Completely new scenery has been created, with more refinement and less chunkiness than Sonic 3, levels are all newly designed, and the contraptions are all original

In many ways creating something from an existing engine has allowed the programmers to make a better game. They can see the parts of Sonic 3 that players enjoyed and make more of them in Sonic and Knuckles, while stripping out sections that didn't work. One obvious example of this is the save game mode. Much was made of Sonic 3 having multiple save positions, that allowed you to start from any level previously attained. Handy for reviewers, but it made the game much too easy to finish! Needless to say after a sea of complaints, it has gone. An example of how making your views heard, either in MEAN MACHINES or to Sega directly, can influence future games

A section of the cart's Krypton Factor sub-game.

I'm really tired and can't think of anything funny. Sorry.

That's the bit that made Sonic famous in the first place that is.

Crikey, that looks like a revamped piece of the fruit machine sub-game.

MULTIMEDIA

For those of you who don't own a Megadrive, don't get bitter and jealous. Remember that Sonic Spinball is out soon on Game Gear, and that Sonic Chaos 2 will grace the Master System and Game Gear before Christmas. There are even moves afoot to translate the Sonic the Hedgehog coin-op for the 32X, and we think that's just fab

ld of feature-length cartoons heads

Even With Dad, Macaulay Culkin is now preparing to enter the cartoon medium in Fox's Christmas big... Page Master. Mac plays a wimpy kid by the name of ... absolutely anything — we're talking about a kid who would ... Baseball game.

The film's brief filmed prologue starts with Tyler returning one day from a day's simpering, only to be caught in a torrential downpour which escalates into a full-blown thunderstorm. Spotting a decrepit old library, he heads for it only to encounter the spooky Page Master of the title whose hooded appearance sends our unlikely hero scuttling for cover. Retreating as fast as possible, Mac stumbles down a set of stairs only to find himself coming to in a world made up entirely of cartoons and nursery...

Whoopi Goldberg and Patrick Stewart...

With the film set to appear ... interpretation of Mac's adventures is coming from Sega themselves. With the film a rich source of animation ideas and characters, it fell to Croydon-based Probe to cram the film into a 16MEG cart. And this is what they've done...

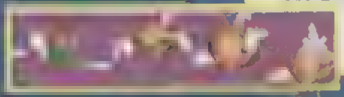
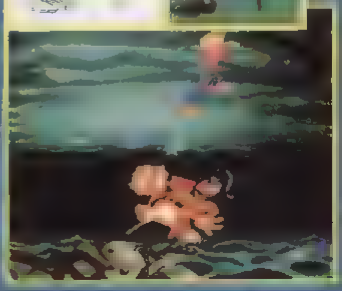
TICKET TO RIDE

Starting in Horror World, Mecca meets up with his hunchbacked ally and eventually moves on to Fantasy World and then Adventure. Each world is accessed via a map screen, with the player entering each stage in the order they appear. The worlds within each are based on three different graphical themes, with the objects altering slightly within each. The basic aim of the game is to find a predetermined selection of objects before making your way to the exit.

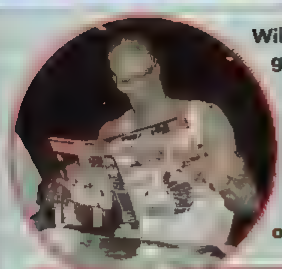
level, with some depending on a specific number of objects being collected or needing a library ticket to exit..

FOLLOW THE GOLDEN BRICK LANE...





One of the first bosses to be programmed, and spookily cinematic



Williams' Double Dragon series is one of the big grossers in the game market — $350m in previous sales, and games over almost every format. The phenomenon hit the Megadrive on instalment two, part three arrived last year and now part, er, five is up for preview. So what happened to four? We may put that in 'Great Unanswered Questions' in the future, but at the moment, five, 'V, or 'Oh no not more of the same old scrotums', is the matter in hand.

DOUBLE

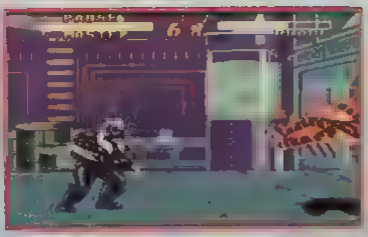
Double Dragon V differs from its walk 'n' thump predecessors by being a Streetfighter-esque one-on-one beat 'em up It also ties in neatly with a new Double Dragon movie that was filmed last year, and is due for imminent release in the States, reaching these shores around Christmas

Developed by Tradewest, he game uses the some characters as the film, and the same setting a brooding Los Angeles in 2007 The city has been devastated by the 'Mother of all Earthquakes' and as a result the populace are a bit on the stroppy side; looting, assaulting and pillaging type behaviour

Enter the convenient legend of the Double Dragon amulet, a mystical medallion created by a King of ancient China, who sacrificed himself to imbue it with the power that would rescue his embattled nation Predictably this little piece of dynamite now stands within the grasp of both good and evil, and the shape of the future depends on how you conduct yourself in the proceeding rumbles

In the game's story mode, you play one of the three goodies, Billy and Jimmy Lee, or their pal, Blade The heroes are set upon by the 'colourful street gangs' each with their distinct mode of dress and behaviour You face the welcoming party in twelve different techno-wreck city locations Alternatively, you can forget all the storyline faff and just slug it out with a mate within the tournament option

▼ *Undi fights late in the great battle* [illegible] *Comic*



They've still to flesh this character out a bit (groan).

DRAGON

DATELINE...2007

It is planned for each of the 12 characters to have four to six special moves of their own, as well as standard moves using the six-button joypad. At the moment the game is 16MEG, and it's expected Sony will keep it at that in order to offer Double Dragon V at a reasonable cost. The emphasis is on the individuality of each of the characters, so they have a profile, with superfluous details of the favourite and least favourite things. Presently, only eight of the characters are coded for play, but sketches of the others show further ideas. Of those who have profiles

I LIKE TO MOVE IT

Find a use for some of those Michael Jackson dance steps.

I can see Game 21 "She is not a Screaming Kick Chick"

DOUBLE DRAGON

Most of the moves are already in place, with each character's fighting style matching their appearance. The Bones character, for example, uses a rifle to extend the range of his kicks and punches. The special moves are also in place, and some look very similar to equivalents in other beat 'em ups. It's impossible to miss the similarity between Sekka's Propeller Kick and Chun Li's Spinning Bird Kick. Specials are performed in the same multiple joypad combinations used by other combat games.

GAME OF A FILM OF A GAME...

This game is a conversion of the Double Dragon film which was based on the original game... etc etc. Anyway, last summer Lucy Hickman had the utter jaminess of being invited over to Hollywood to visit the Double Dragon film set. There she chatted to all the stars including the arch-baddy Koga Shuko AKA Robert Patrick (better known as the Terminator in T2). Here's her report...

Much ripping off of shirts and manly fisticuffs in the movie.

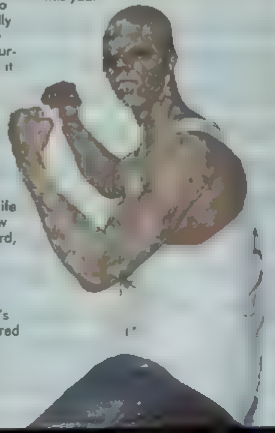
The film follows the story of Billy and Jimmy Lee struggling to survive in terrifying New Angeles in 2007. The empire is ruled by the evil Koga Shuko (Patrick) who kills Jimmy when he refuses to join his organisation. Billy swears revenge and with the help of the beautiful Marion, infiltrates the dictator's HQ. But Marion gets kidnapped (quelle surprise) and Billy finds Shuko has taken over his brother's body so the twins are ultimately pitted against each other in a desperate battle of good versus evil.

Patrick's role as the megalomaniacal Koga Shuko is something he relishes. He said: "This guy's so vain and such a total megalomaniac, just a power-hungry guy. He's got a destiny and he's got to fulfil it and what he's doing is right. He's a fun guy to play for that reason. You can kinda get into his character and play around and have fun but I don't have to take it too seriously."

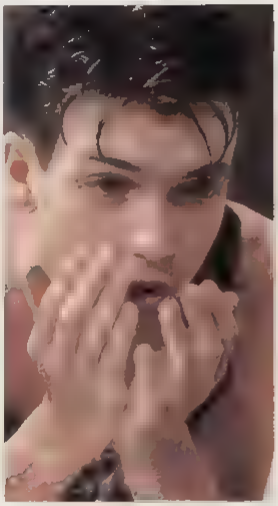
Patrick has never actually played the Double Dragon game but he does have the T2 arcade machine of in his house. "That game was delivered to me the day the riots started in LA. It was surreal. Damn TV is going and they're burning down the city and there's me and my wife and my friends of my place playing this machine. It was a riot."

Patrick's face became known all over the world after Terminator 2 so what was it like being Mr Machine man? He said: "T2 was challenging in its own right too. You got to shut down, act really cold and make like a machine. The hardest part is making yourself believe it. Once I believed it it became a reality to me. I would walk around the streets of Hollywood late at night dressed as the Terminator. It's a neat feeling. That's the great thing about acting. When you can believe that you're really this thing and then go out in real life and pull it off, when you know people are looking at you weird, that's kind of fun."

And finally, what was the big man himself, Arnold Schwarzenegger like? "He's a great guy, he's wonderful. He's always there, he gives a hundred percent friendly whenever you see him, that kind of thing, he really is truly greater than life." Double Dragon: The Movie is set to appear on our screens later this year.



YOU WON'T SEE ME WITH SPOTS.



Getting spots was no big deal. But given the choice, I can live without them.

It's been a while since I've had one.

Nowadays I use Oxy® Clean Facial Wash.

Twice a day, morning and night – no more soap and water for me.

First, I wet my hands and clean them thoroughly with Oxy Clean Facial Wash.

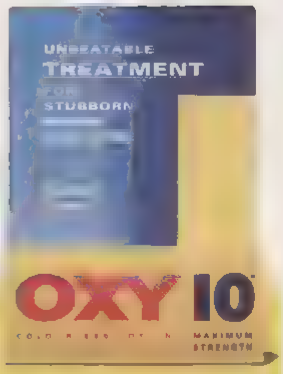
Then I lather up some more and rub it all over my face before rinsing it off.

That's it. That's all you need to know about how to get clean, healthy skin.

And how to keep it that way.

Of course, even when I'm really careful a persistent spot can slip through the net. And if one does, I just use some Oxy 10. But I hardly ever have to.

HARDLY EVER.



Always read the label. Oxy 10 contains Benzoyl Peroxide. ®OXY and OXYCUTE EM are trademarks

OXYCUTE 'EM!

JELLY BOY

"Mister Soooooaaaaaaft, why is the wooooorld you'rrre living in is soooow straaaaynge?" What a classic ad song that is. Thankfully, it vaguely ties in with the new Ocean platformer Steve went to see. Vaguely.

PROBE

If the star of Probe's new platformer was a TV star, he would be the Megadrive equivalent to One Foot In The Grave's Richard Wilson. For years both Jelly Boy and Mr Wilson have been hovering around the edge of fame, but whilst Richard Wilson found fame as Victor Meldrew, Jelly Boy was left to wallow in obscurity.

MEAN MACHINES first met up with the little pink hero two years ago when Steve went to see how the original Mortal Kombat was shaping up, and the pair kept in touch ever since. During that time, Jelly Boy was set to appear under the EA banner, Sony had an interest — he was even touted as a possible game tie-in for Rowntrees, the people who make Jelly Babies — and, even worse, as a Mr Blobby game! Thankfully, he was saved this fate worse than death, and after these plentiful flirtations with virtually every software house imaginable, the Megadrive version will now be released through Ocean as one of their first forays into the Sega market.

Why the fuss about what, to all intents and purposes, looks like just another platformer? Because it's not, that's why. Jelly Boy is a massive seven-world epic with our rubbery hero morphing into a series of weapons as he fights off a selection of extremely odd bad guys. Now, as the little wobbly wonder prepares to take his first faltering steps into the Megadrive world, it was only right that we were there to meet him. We're good like that.

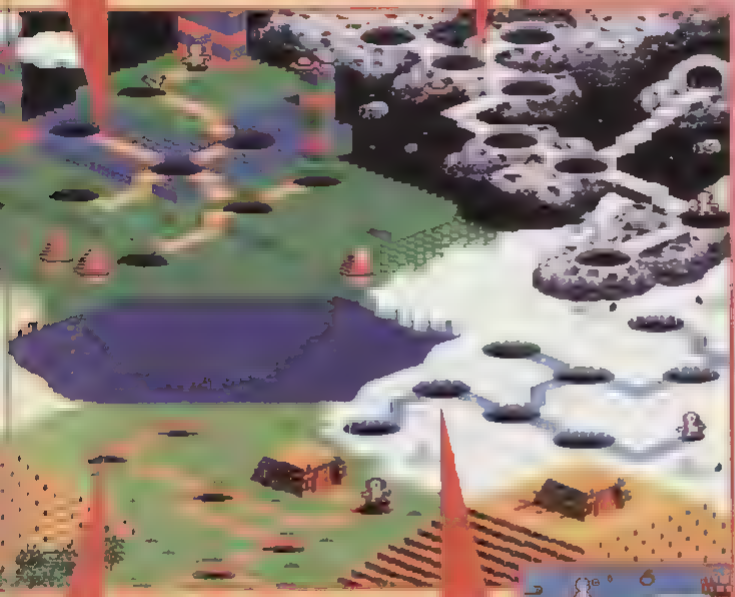
▲ Please, no Led Zep jokes, please.

◀ Mmm, I want to get hold of your big juicy apples.

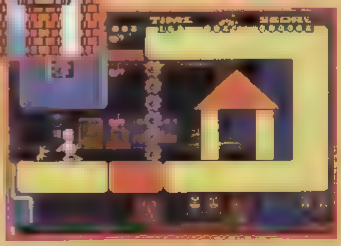
Sand dancers, mummies, pyramids... there's missing is Christopher Lee.

LEVEL 9: MENSWEAR... GOING DOWN!

Swirley's Sweet Factory is unlike anything even Willy Wonka could create. Spanning seven entire worlds and split into a series of smaller sub-stages, Swirley's makes Buckingham Palace look like a caravanette. Jelly begins the game standing on a sprawling isometric map which is punctuated by a series of holes which act as the entry port to each. "We've got a land based on toys in there," offers Jo, "and this is followed by ones based on ice, space, desert, the sky, and an Aztec period. There's also an underwater scene, and that leads on to the final confrontation with the granddaddy of all bosses." As can be expected, the sweet factory is infested with all manner of strange beasties, and these tie in with the level's graphical themes, with snowmen inhabiting the ice world, assorted toys in the first, and all manner of aliens in outer space. "We've also tried to add a bit of humour to them," Jo expands, "so there are nasties who'll pick up others and chase you with them, and ones who don't look too dangerous but can cause real grief."



▸ You can sing for your big juicy apple.



▸ It's the wall game! (ancient kids' show starring Smarties)

MORPH THAN WORDS CAN SAY

Thanks to his jelly based compo sition, our rotund pink hero adopts his body to suit the sur roundings. Scattered around the play area are numerous pink icons. When collected, Jelly duly assumes their shape, allowing him to morph into all manner of shapes, including hammers, hot-air balloons and a smaller ver sion of himself. "Originally, we were aiming for 35 morphs," says Jelly Boy's creator Jo Bonar, "but they were very memory intensive and some were basically clones of earlier ideas. In the end we trimmed them down to 27, including submarines, skateboards and pogo sticks." As soon as Jelly has collected such an object a small countdown materialises around his head indicating the lifespan of the power-up. However, should Jelly bump into one of his many foes, the object is lost instantly. "Any lost items are reset immediately, but it can often prove fatal," continues Jo. "For instance, there's a scene where Jelly Boy is a helicopter in a scrolling shoot 'em up sub-game, and if he doesn't reach the end of a level before the countdown expires, a life is lost."

▲ *And Jelly Boy came across a magical castle. We think.*

JELLY GOOD SHOW

MEAN MACHINES has had a long and eventful life which, through the years, has brought us into contact with some of the weirdest scenarios ever. We've had blue hedgehogs with attitude, clusters of balls fighting each other, and we're about to encounter a time-travelling Dolphin. Jelly Boy, however, has the most intricate scenario ever. "Originally, the game was going to be set within a theatre," says Probe's chief tester, Tim Bradstock, "and Jelly was going to make his way through a series of plays and behind the scenes of each. But the game's changed so much since then, that sort of fell by the wayside." Instead, the story starts in Swirley's Sweet emporium with a big vat of jelly being hit by lightning and giving life to our glutinous hero – a Rowntree's equivalent of Frankenstein! Anyway, to cut a long story short, Jelly Boy wants to escape the strange sweet shop, but needs access to a special lift. To gain access, six special objects must be collected and given to the lift operator. Why the lift operator wants a selection of spinning tops and the like we'll never know, but someone at Probe obviously plans to be the next Enid Blyton!

MUMMY WOW! I'M A BIG BOY NOW!

During his quest, Jelly must locate eight pieces of a jigsaw puzzle from each world which are exchanged for one of the objects the lift operator needs. Naturally, there are hordes of nasties out to prevent Jelly's escape, but with a repertoire of some 27 moves he's more than adequately armed – including additional help from his pet Jelly Dog (who was based on the programmer's own pooch). The list of morphs is seemingly endless, but here's a selection of some of the more impressive:

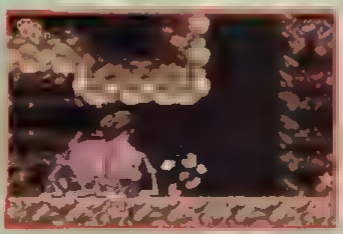
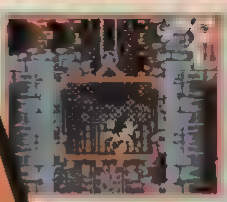
MICKEY

Oh, Mickey you're so fine, you're so fine, you've blown my mind! Hey Mickey! Hey Mickey! Not actually an ode to the great mouse Methuselah, arch-mascot of Disney corp, Über rodent and star of countless (count 'em) video games, but it nonetheless typifies the continuing enthusiasm of his following. Now Sony are ready to unleash another manic Megadrive Mickey extravaganza, his 'Timeless Adventures' no less.



MANIA



First floor: haberdashery, ladies ready to wear, undead, going up...

Despite the many pretenders who have tried to displace him, Mickey Mouse's position as first and greatest cartoon hero is unassailable. The integral relationship between himself and Disney is unique in the entertainment media unparalleled perhaps, until a certain Japanese corporation linked its destiny inextricably with that of a small hedgehog.

Before then by comparison, Mickey had been looking a little jaded. Like all great movie stars, he had become a bit of a recluse, taking few roles and his public were perhaps beginning to forget him. But the new media of video games presented him with fresh opportunities, and Mickey rose to them with aplomb (a bit like Joan Crawford gamely doing TV soaps after the Oscars dried up).

And Mickey has an advantage over those whippersnapper rivals. He has a legacy, he has a history, and part of that history are some of the greatest and most innovative cartoon shorts of all time. Having been brought up on a diet of Deputy Dawg, Tom and Jerry, Sylvester and Tweety ad infinitum, intravenous cartoonery, we fail to appreciate the impact that early shorts like Steamboat Willy would have had on audiences well over half a century ago. At that time Mickey was the cutting edge.

Now that Mickey has been 'pensioned off' (this is his 66th year) it's time for that contribution to be recognised in tribute form, which is probably the best way of interpreting Mickey Mania. It's a playable nostalgia trip through his career highlights, and befitting his adventurous character, the game seems to attempt some innovative effects previously unseen on a Megadrive. For Mickey, no expense has been spared.

From 'The Lonesome Ghosts', a sanguine sequence.

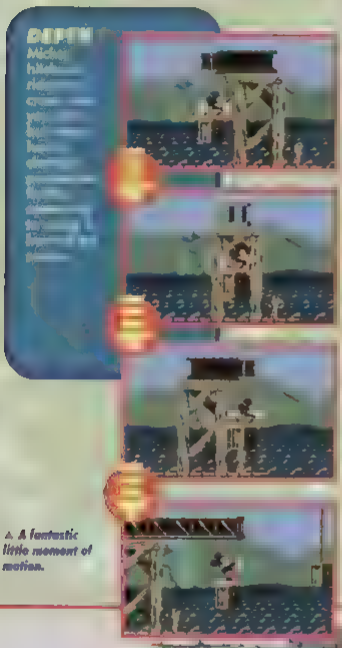
GOOD TRADITION

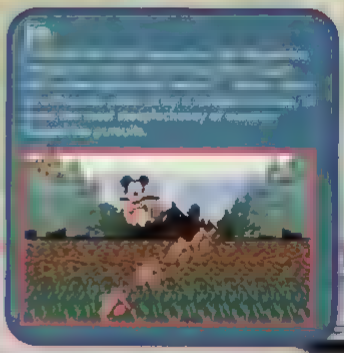
Mickey Mania falls into the long tradition of platform games on the Megadrive, but its looks, design and attention to detail put it in a higher bracket than some of the monstrosities we've seen pass by this year. That goes without saying, even before the game is ready to for a complete review. The standard of animation is particularly high, with thousands of frames expended on characters like Pluto, and the bosses (another high tradition of platforming respected here). Other 'little touches' show the evolution of colour in the early cartoons, hairlines across the 'film' of Steamboat Willy, and numerous cameo appearances.

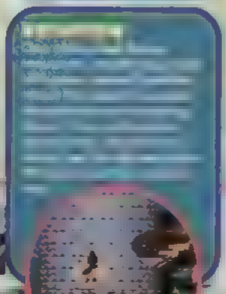
CHAPTER AND VERSE

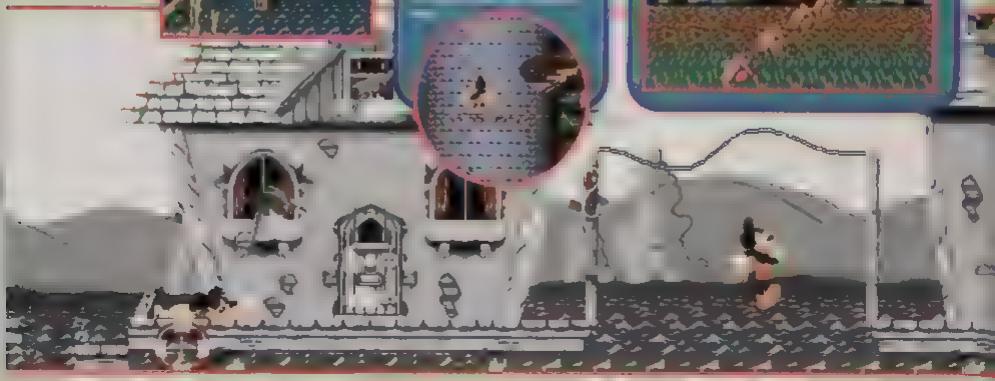
The game is designed around six celluloid chapters in the Great One's career. Naturally, we start with the first episode, 'Steamboat Willy' from way back in 1928 (November 18th, calendar fame). The next three chapters all come from the halcyon period of cartoon shorts in the Thirties; 'The Mad Doctor' (1933), 'Moose Hunters' (1937) and 'The Lonesome Ghosts' (1937). The final two chapters cover a well-loved Jack and the Beanstalk excerpt from 'Fun and Fancy Free' (1947) and one of Mickey's most recent outings, a version of Hans Christian Andersen's 'The Prince and the Pauper' from 1990. The aim in each one is to locate the Mickey character in each with your own Mickey and lead him to safety. At the end of each episode, an unseen illustrator sketches a little introductory vignette.

At several points throughout the game you notice effects where the programmers have forced the Megadrive to work beyond its predictable spec. Many of these moments are cosmetic, but not to be unfair, some like the Moose hunt section are actually part of the gameplay. Highlights include:



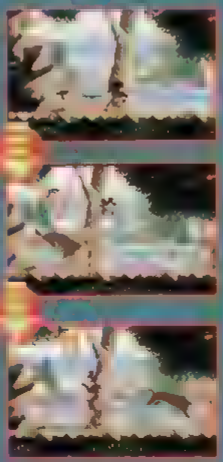






▲ A fantastic little moment of motion.

OBJECTIVITY



Storywise will be nothing likely to progress before events.

THERE LIES A TALE

ECCO II

TIDES OF TIME

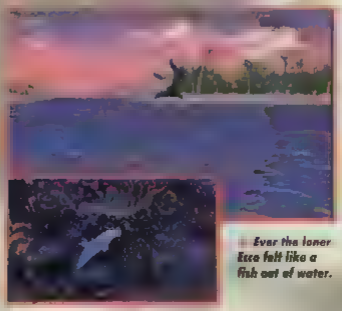
When the original Ecco the Dolphin emerged from the depths of Sega last year it sent the MEAN MACHINES crew into a panic — what could they put into the game genre box on the review pages? It was a whole new style of game. What could we call it, a swim 'em up?! And while other inferior products emerging at the same time headed towards a watery grave, Ecco, with its highly atmospheric, utterly original gameplay caused mighty waves with the Megadriving public and became one of Sega's best-selling games ever. Never ones to pass up the chance of milking a good thing, Sega are trying the same again with a sequel — Ecco II: The Tides of Time.

From what we've seen so far, Ecco II looks like being a true sequel, and boasts a whole new storyline and many, many new features. Coders Novotrade have been given a huge 16MEG cart to play around with — twice the size of the original — enabling them to really go to town variety wise on the graphics and gameplay front. In the first adventure Ecco was pretty much confined to the ocean but in this new offering, our smiley chum has defied the laws of science and can not only breathe outside the sea but can take to the skies and fly as well! He's also mastered the art of morphing and regularly changes his shape to one more suitable to his surroundings.

His new powers are courtesy of the storyline which again has Ecco doing good deeds and righting wrongs at the bottom of the sea but this time has him moving forward in time and his new skills are all courtesy of the evolutionary process. Handy eh? Ecco 2 is looking good so far, and we'll bring you a full review of this one as soon as we can.

▲ *"That's nothing," said crab. "I can do 'ass out my bum".*

When Ecco's mum sees that damage, she'll go loopy.



Ever the loner Ecco felt like a fish out of water.

CARNAGE

When a raving nutter goes round proclaiming he's really a monster, the only sensible thing to do is strap him in a steel strait jacket, lock him up, throw away the key and make sure he doesn't have access to any sharp objects. He's a nutter right? He's a raving loony with no marbles to speak of, a few bricks short of a load and the lights are on but nobody's home. Monsters in civilised society. Pah!

The thing is, the law abiding citizens in this Maximum Carnage game seem to forget that if a man can take on spider-like tendencies and swing around on webs, there's a fair chance that this head case is telling the truth. Unfortunately for them, he is as they discover when he rips open his bonds, sheds his human disguise and reveals himself as carnage, shortly before tearing all their heads off.

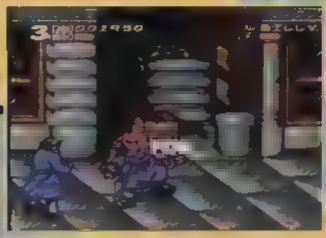
Free at last, Carnage goes on a killing campaign the like of which New York City has never seen before (except yesterday and possibly the day before that and last Tuesday and..) anyway, a lot of people die as Carnage seeks out Spiderman, the guy responsible for his captivity on whom he plans terrible revenge (just before causing the end of the world in some deviously dastardly way. Probably).

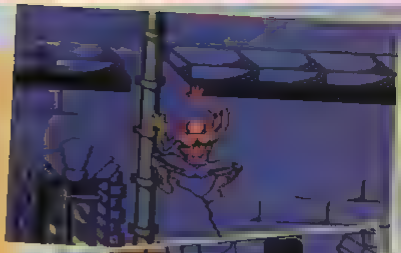
On his travels he happens upon a beautiful but thoroughly evil feminine fiend — Shriek— and a moronic but exceptionally brutal Spiderman look-alike by the name of Doppelganger who join his forces and go all out to destroy the webbed wonder. You as Spiderman or Venom, together with a little help from your friends must stop them in their murderous tracks.

Electricity is very dangerous. That was a Public Information film.

SPIDER SPECIALS

Ol' Spide has a number of specia moves at his disposal as he romps around the streets and rooftops of the B g Appe As well as the usual wall-c imbing and web spinning ant cs which transport h m up build ngs and across the skies he s also equipped with a number of impressive punches and kicks and general leaping attacks as we as a fab web sh e d He can also pick th ngs up and throw them at enemies (includ ng often the enem es themselves) and when his punches are powered up enough he comes out with a humungous Power Hit Whenever he makes a successful attack on a foe it results in a number of annotated cartoon-esque Ker thwacks and 'Poks' Make sure when you re on the street you c imb all the wa ls and exp ore a l the nooks and crannies because power ups and extra ives are often h dde more n

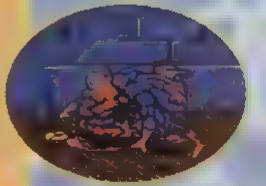




Venomous individual.

THE GOOD, THE BAD AND THE UGLY

Spide s not alone n his quest for goodness when he s in dire need pals such as Captain America Firestar C oak and Dagger whisk him off ont l he s pulled himself together n a series of between- evel animations And after pass ng a cer tain po nt in the game the player gets to choose whether to continue as Sp dermon or transform nto Venom a heavy weight superhero who has all Spiderman s web weav ng skil s but is ultra strong (not quite so fast though so beware) On the down side t s not just Carnage, Shriek and Doppe ganger who are after our web-slinger s ass it seems that all the demons from hell have sprung out of the wood-work to have a bash including the shuddersome likes of Morb us Deathlok and Demogoblin



When someone turns up in the same dress, don't you just want to scratch their eyes out?

JURASSIC PARK

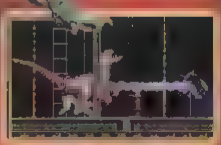
RAMPAGE EDITION

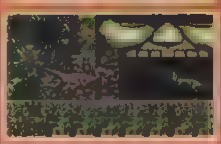
...sometime in October

...become the treacherous undergrowth of Jurassic Park.

...kill takes the form of chewing your enemies into submis-

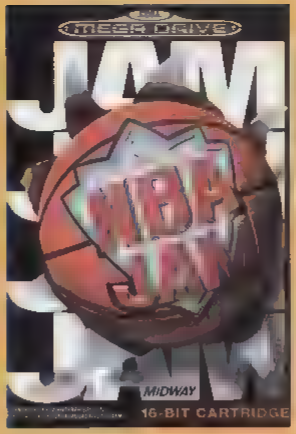
...God, if it was any closer it would be ask-
...for a menini division and not dinner.
...Rampage Edition will be reviewing in a shed-
...bringing you a full review before then.

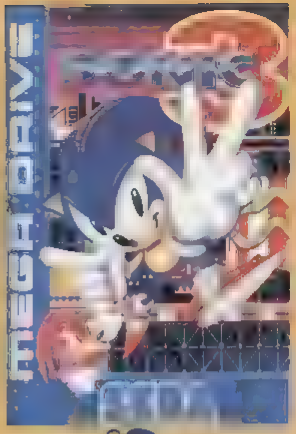




FROM SEGA WITH LOVE

...Although the basics of the new version are pretty...
...pretty namby-pamby in that you couldn't kill anything, and you could only shoot tees with a stun gun until they fell asleep. Similarly, the Raptors could only chew victims lightly until they fell over (there's none of that girl's bloussery in Rampage, though. Dr Grant has many more weapons at his disposal and far from putting enemies to sleep, he blows them into oblivion in a variety of inventive and gruesome ways. He's also much more versatile and is now able to ride dinosaurs and tackle ropes, ladders and other such tomfoolery. Hurrah!





(Sorry, unavailable.)

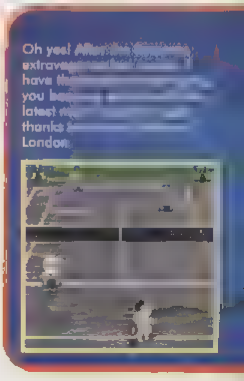
PAULS TIPS

Howdy fellow tipsters, and welcome to this month's out of body instalment of the essential selection of tips and cheats. Due to a bizarre scientific mishap, I am now communicating to you telepathically via the lifeless body once known as Oz Browne. Yes that's right my friends, while busying away in my top secret tips research lab, an overload of tipping excitement blew up the experimental apparatus I was working on, sending me into the fifth dimension. Luckily my loyal assistant Blade placed my spirit form into an empty coke bottle until I can be re-materialised. But fear not my chums, the Mean Team have had a whip round to send me off to America where help lies in the hands of Dr Diablo-Sanchez. There's a bit of a problem, though, as they've only managed to club together sixty-five new pence. Oh, and a felt-tip pen. As for now, my mind control of Oz's body will be my only means of contact with the outside world. Still it's not all bad, in my formless state I have the freedom of the ether to gather a crop of the finest tips and cheats to be found. But before I get the ball rolling, don't forget that you could be the proud owner of a shiny new cart by sending in your top tips and cheats to the following address:TOP OF THE TIPS, MEAN MACHINES SEGA MAGAZINE, PRIORY COURT, 30-32 FARRINGDON LANE, LONDON, EC1R 3AU.

DANCING SONIC?!

Well this isn't technical[illegible] a strange occurrence never[illegible], you can mak[illegible] use the LEVEL SELEC[illegible]ctive and hold A to activate the DEBUG mode [illegible]nd press A, B, and C and watch Sonic strut [illegible] Weirdy[illegible]



Oh yes! Alter[illegible] extrave[illegible] have th[illegible] you bes[illegible] latest [illegible] thanks [illegible] London

ANTIQUES
SIDE SHOW

It's often the case that carts from a couple of years ago get shoved to one side. In a dark and cold corner they slowly gather dust. Reeling memories of times gone by. But hey! Now's the time to liberate them from the scrapheap and have a good old bash at them with some new cheats.

GHOULS 'N' GHOSTS

Mark Scales from Martham, Norfolk has picked out a right classic in the guise of Ghouls 'n' Ghosts. For a nifty Level Select, keep pressing UP, DOWN, LEFT and RIGHT until you hear a 'ding', and you're away. All you need to do is press the following:

LEVEL	BUTTONS
2	UP and START
3	DOWN and START
4	LEFT and START
5	RIGHT and START

What's more, you can jump the first part and start off the second by entering this stuff:

LEVEL	BUTTONS
1	A and START
2	UP, A, and START
3	DOWN, A, and START
4	LEFT, A, and START
5	RIGHT, A, and START

For the very final Boss, Loki, press DOWN/RIGHT and START.

MEGA-CD

FIFA INTERNATIONAL SOCCER

HIDDEN OPTIONS

To commence the celebrations this month we kick off with one score cher of a collect on of FIFA codes brought to you thanks to an extremely ded cated young man going by the name of Pau Shotton from Stoke-on-Trent Somehow he managed to get hold of the CD even before it was released in the shops After playing it to death he faxed me these fabulous new options to increase your enjoyment of this already fab game To access the new options, simply go to the OPTIONS screen and top in the following for the following

SUPER POWER	B, A, B, B, B, B, B, B, B, B
SUPER OFFENCE	A, A, A, A, A, B, C
SUPER DEFENCE	B, B, B, B, C, B
DREAM TEAM	A, A, B, B, C, C, A, A,
SUPER GOALIE	A, A, A, A, A, A, B, B, B, B, B, B,

CRAZY BALL	C, A, B, C, C, B, A, C
CURVE BALL	B, A, C, B, C, C

MASTER SYSTEM

SPIDERMAN

COSTUME CHANGE

If you re tiring of the standard old blue and cherry red Spidasuit then why not swap it for one of Venom s really scary looking black all-in-one cozz es To pick up this costume change go to the pit at the end of the Sewer level where you get the key Jump under the base of the ladder and by pressing JUMP and DOWN, so as not to drain your energy, jump out again and you should be clad in a lovely black suit A word a warning, though, this cheat only works in Nightmare mode Cheers to William Dixon from Reading for that

GAME GEAR

ROBOCOP VS TERMINATOR

WARP ZONE

The metal clad duo have become quite an item in the world of T pstering Hardly a week goes by without some new location or other being discovered and rushed to me This month's instalment was penned by Graham Hope from Co. Durham To get to the Warp Zone you need to find the toxic waste tank next to the step ladder in the Toxic Farm Stand next to it and press UP Now in the Secret Room, climb the chain just low enough to climb Climb it and go right collecting the extra life Find the three round objects on the ground, stand on one and push UP And there you go, you're in the Warp Zone

Welcome to the Empire State Building

MORTAL KOMBAT II

After months of waiting, Acclaim's conversion of Mortal Kombat II is finally here — and managed to live up to all the hype surrounding its release. As such, many of you are probably busy twisting your joypads into every conceivable direction in order to pull off the Fatality, Babality and Friendship finishing moves. If you're still struggling, fear not as Steve is here with the definitive list of moves to ensure your foes are well and truly finito. What's more we not only list the moves for the Megadrive game, but next month we'll be printing every Fatality within the brilliant Game Gear version, too...

CODES / ABBREVIATIONS

We've abbreviated the following commands to save on space so we can unveil every move within the game. The codes are as follows:

F - FORWARD
B - BACKWARDS
U - UP
D - DOWN
HP - HIGH PUNCH
LP - LOW PUNCH
HK - HIGH KICK
LK - LOW KICK
BLK - BLOCK

The high and low punch moves only come into effect when using a six-button pad. Seperate codes are provided for players using three-button controllers. Similarly, when using a six-button pad, you may find it easier to block using the B and Y buttons. Finally, when the instructions use the '+' sign, the last two controls MUST be used simultaneously.

Finally, to knock an opponent into the 'Dead Pool':

THREE-BUTTON: LP + BK WHILST USING UPPERCUT
SIX-BUTTON: LP + LK WHILST USING UPPERCUT

BABALITIES AND FRIENDSHIPS A WARNING

In order to pull off either a Babality or a Friendship move, it is important that no punch moves are used in the winning round If you do, the option to perform one of the two is deleted You have been warned

THE HIDDEN FIGHTERS

Accessing the game s hidden fighters can seem a rather hit and miss affair However there is a code to battling the awesome three

Here s how

NOOB SAIBOT Win twenty-five bouts in a row The last MUST be against a second player

JADE Jade can onl be accessed in one-player mode The player must win a round against the fighter situated under the question mark on Mortal Mountain without using high kicks, high punches, low kicks or blocks

SMOKE Found within the 'portal' stage, press block and down together (it doesn't work just holding them) within a second of the 'Toasty sprite appearing This only works in two-player mode, though

THE CHAO

PRE-MISSION BRIEFING

Okay, listen up! The real key to success is in choosing your team. Look for two characters who can back each other up. That is to say, you don't want to be playing the Thug if the second player is the Scientist who's going to steal all of your power-ups and cash. So weigh up all of their attributes carefully before setting off. For the sake of this mission I will be taking the Navvie and the Gentleman into the battle zone. As for general rules:

1. Keep shooting at all times – you never know w
2. Take
going
3. Alw
about
self.
4. If you come to a dead-end with no keys available, try everything from special attacks to plain blasting. It may be just a case of deactivating something.

WORLD ONE – THE FOREST

LEVEL ONE – THE BEGINNING

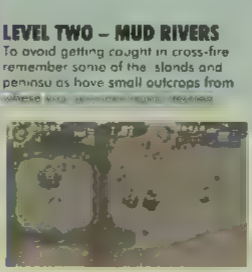
This is your opportunity to get to grips with the characters and the terrain. But don't take things too easy as there are plenty of monsters to overcome. The general rules apply as before but, in particular, don't miss out on the cash as you'll need it to buy extra lives and health.

KEY TO YOUR HEART

After grabbing the first Death Zone Token (DZT) make sure you pick up the set of gold keys to the far right. A passage will open through the bushes uncovering a cache of food, cash and special power ups.

LEVEL TWO – MUD RIVERS

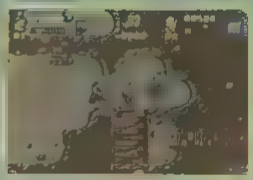
To avoid getting caught in cross-fire remember some of the islands and peninsulas have small outcrops from



potential hazards. Forward thinking pays dividends in this maze of mud pools and wooden bridges.

BRIDGE TOO FAR

By blasting the blue monster on the island some cash appears. More importantly though, a small bridge materialises allowing you to cross and grab the other gold keys, opening a further bridge to more cash and keys.



WHICH WAY?

There are two choices of route when it comes to completing this level. By taking the route north you risk life and limb at the hands of the four-way bunchers, but then the power up rewards are greater. If you're low on health a far easier option is to the east as you can take out most of the opponents from the safety of another island.

LAST STEP

Only half a staircase? First go to the right and pocket the gold keys. Voilà! Up pops the entire flight of steps. Watch out for those rather speedy monsters, though. To put an end to their antics, simply steal their door keys. Then it's home free to replenish those supplies with the cash collected during your travels.

OS ENGINE

LEVEL THREE – RINGS

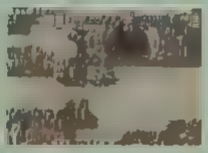
The action starts to get a little more puzzle-orientated in this level. Be on the look out for all the keys to find the hidden sections.

HIDDEN POWER-UPS

Instead of continuing north after hitting the node, return to where you found the first set of silver keys and you'll find the gold set. As if by magic the wall to the left has gone, so follow the path to the bottom killing the beetles. Pick up the set of gold keys, find the third statue on the left and blast it — more gold keys. These open the buildings to the right giving you goodies galore!

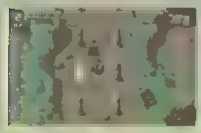
SECOND PORTCULLIS

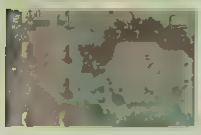
Don't exit through the first portcullis if you've found the secret grotto of hidden power-ups. Instead, head to the far left where the wall has opened giving access to the last set of gold keys and the final node. Activate the node and it's time to make a sharp exit through the gate marked B.



LEVEL FOUR – ROCKIES

If you came through the B gate from the previous level then it's time to stock up on lovely cash and stuff. It certainly is a fitting title for this level, as it's blasting action on numerous levels, and the only way to progress to a higher path is again to find those keys.





ROCK OF FORTUNE

Blast this fella and the keys that you'll find will open a bridge to a DZT and a very nifty short cut.

WORLD TWO – THE WORKSHOPS

PASSWORD – RMYN8CPD#7QF

LEVEL ONE – MAZE

If you thought the first world was a struggle then hold onto your hats as we enter the labyrinthian confusion crawling with really big and bad thugs. After picking up any keys, it is essential to double check walls for secret passages leading to goodies.

HANDY POINTER

Now that's a bit of a give away, isn't it? Kill the big guy to the south and then hit the wall to claim a full house.

CENTRAL RESERVATION

Don't forget to make your way to the centre of the maze. The wall may seem solid but with a quick blast you can claim the map.

LEVEL TWO – TRAPS

It's time for yellow monster fun! These beasties take several hits before going down so keep a shoot'ng and a movin'. What's more, warp zones tend to materialise before you have the chance to explore fully.

ALL FOUR ONE

Do you really need this cash? If you pick it up, you're asking for trouble from its four guardians.

TRAP DOOR

To open the door and save your skin, go round in a clockwise direction. Two monsters will appear, but watch that wall fence them in.

LEVEL THREE – STEAM

Now the pressure is starting to build right up to a good head of steam. Timing is essential for the release valves that shoot out life-threatening jets.

KEY'S UNDER THE DOORMAT

Well, not quite. But you will discover a set of keys when you shoot the wall between the third and fourth steam valves. With them in your pocket, they open the door to the south where the map is to be found.

SCALDING

Ouch, that hurts! There's no way you can walk through the steam, instead you have to switch it off by blasting the tubing next to it.

WORLD THREE – POPTROPICA MANSION

PASSWORD – QG38C1SVKLK

LEVEL ONE – THE PITS

One step closer to the final conflict, the mansion has its own peculiar breed of nasties. Watch out in particular for the Addams Family-esque hand creatures and the death's-head wall-mounted missile launchers.

WELCOMING COMMITTEE

From the outset it's a right old barrage of mayhem and monsters. Once you've finished off the hands, climb the stairs and stand against the wall. In this position fire left and right to take out the death-head one by one.

HIDDEN MAP

Feeling a bit lost? Then why not try a map. By shooting the first statue from the right, the map appears.

BRIDGE MANIA

Those gold keys are going to get you into all sorts of trouble. But don't worry if you get cut off behind you, as they do eventually lead you round the circuit and to the exit.

LEVEL TWO – CONFUSION

It's decision time. There are several different routes to completion, but to grab the cash and power-ups try the left-hand corridor.

WARP WALL

You can't get to this node by normal means. To get to it, stand on the square tile and shoot the wall ahead of you. A bridge makes an appearance leading to the silver keys. Once in possession of these fells, it's back to the node and away you go.

CORNERED

What! No way out with some bald goon lobbing bombs at you! The only language he understands is the gun. When he's smoked, the door will open.

LEVEL THREE – REVERSE

Things get a little crazy when the enemies turn out to be mirror images of your characters. You'd better be swift over this level.

LEVEL FOUR – WAY OUT

This is the last chance saloon for stocking up on bonus bits before the entrance to the cellar. The action is as furious as ever, but keep your head and we're through to the last level.

ROOMS TO GO

Be quick getting into these rooms, as the only way to get in is by nobbing the purple nasties as they exit. Your best bet for power-ups is to head for the top right room first to find the keys.

ENTER THE TWILIGHT ZONE

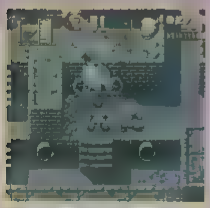
Walk into this wall and it's secret room ahoy! Grab all of the stuff and then stand on the circular tile in the bottom right corner to return.

WORLD FOUR – THE CELLARS

PASSWORD – F#KPCGFTLV2Y

LEVEL ONE – SEWER

Uh-oh! Now we're getting heavy – heavy metal, that is. Things take a techno turn as robots attack from all sides and take more hits to kill.



CLUG! CLUG!

Unblock those drains with this switch to progress further.

LEVEL TWO – PUMP ROOM

There's more of the same action on a larger scale in the pump rooms. Don't forget those switches to drain the paths.

HALF A STAIRCASE

To extend the staircase fully on the left side, blast all three switches to the down position. The right-hand switch also drains the water from the next sump.

LEVEL THREE – HALL OF MACHINES

The Engine's last line of defence rests on its robot army and force fields. Deactivate the force fields by destroying the power supply either side. Take it step by step and keep grabbing those DZTs at the first opportunity.

NO EXIT!

Now that's just fine. You've made your way up the hall of death and now you can't get out! Of course you can. Walk south a tad until you find the pod. Shoot it.

LEVEL FOUR – TIME FOR CHAOS

Well troops, here we are at the final conflict. Avoid damage at all costs as the final onslaught takes all you've got. The scenario is simple: the four generators powering the Engine's external force field must be destroyed before taking on the machine. Good luck, you're going to need it!

WALK INTO THE LIGHT

Once all four generators are shut down, go to the front of the Engine and step into the light circle. You're now teleported to the innards of the machine.

THE END...

After a job well done, it's time to sit back and watch the credits. The chaos has ended, you will be remembered...

1ST DAY SCORE

Best Psy-Crow in the midnight mass.

Jim is the latest superhero to come from the Dave Perry stable of platform antics.

GAME BREAKDOWN

Using the power of the Cybernetic War Suit, rescue the Beautiful Princess What's Her Name!

Our story begins in a leafy suburban garden. Creatures of all shapes and sizes go about their daily business as card carrying members of the food chain. A peckish crow swoops overhead looking for his lunch. Between the blades of grass he spies a lone, juicy, wiggling worm with the word 'Tasty' tattooed on his back...

Meanwhile, somewhere on the other side of the stratosphere, a battle rages. The all-round intergalactic baddie, Psy-Crow, has been on the trail of the stolen Cybernetic War Suit since it disappeared from the armoury of his ruler, her royal highness Queen Pulsating, Bloated, Festering, Sweaty, Puss-Filled, Malformed, Slug-for a Butt. The ether sizzles with plasma blasts discharged from the hilts of the warring factions. In a desperate bid to snatch the precious suit, Psy-Crow vapourises the thief's craft, only to witness the suit's plummeting descent into the Earth's atmosphere.

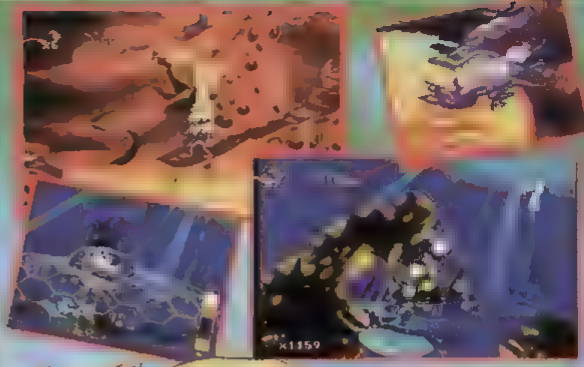
Returning to Earth we find the crow in hot pursuit of his potential meal ticket. The pace quickens as the worm realises his dirt-munching days are rapidly coming to a close. But what's this? There's a large boom overhead as something hurtles into view. With a crash and bang, the white object from above comes to a sudden standstill. The race is still on, however, and the crow opens his beak in anticipation of this tasty morsel.

There's only one hope for the worm, and that is to throw himself into an opening up ahead. Reacting to the presence of a carbon-based life form, the suit powers up, transmogrifying our humble earthworm into ... an Earthworm Jim, Saviour of the Universe!

WORM YOUR WAY OUT

Is there nothing this boy can't do? Well it does help that he's got his suit. But the combination of common household worm and ultra technology is the key to success.

WORM TM



▲ It's Earthworm underwater, the original DSV divvy.

Dare you take on the power of Hackney Environmental Services, foolish mortal?

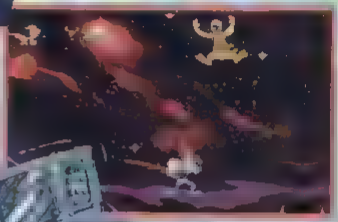
Ride that rodent, pardner.

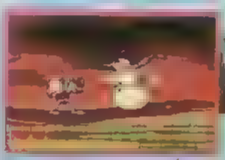
Oh, for the wings, for the wings, of a dove!

OMMENT

ANDY ASTEROIDS

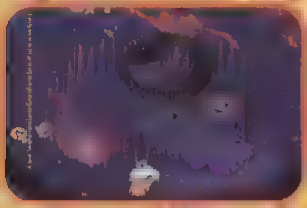
With another level complete, Jim is forced to race Psy-Crow to the next location. The dash through hyperspace is fraught with danger as they pass through the asteroid belt. To protect himself from the oncoming chunks of rock, Jim can pick up shields and rocket packs to zip him along with invincibility. To add a hint of danger to the proceedings if Jim is beaten by Psy-Crow to the next stage, he has to fight him to enter the level.





You'll soon be yellow snow, pal.

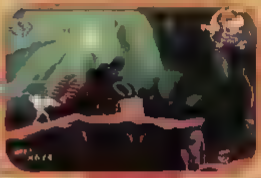
If you strike me down now... I'll be two separate little wiggly bits.

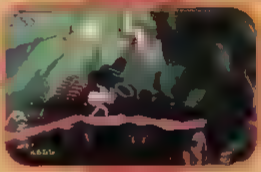


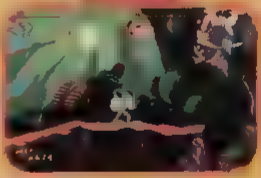
Just call me Calvin

BOSSES

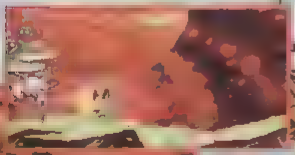
A vast se ection of extremely unsavoury characters have been brought in to give Jim one heck of a time. But not satisfied with just one end-of-leve meanie a mid-level boss has been included. It's not your standard shoot 'em 'til they die though. Jim has to find a weak spot to fin sh them off







It's a long way down



Too bizarre to even caption.

Cow launch in five seconds. Udders? Check! Swishy tail? Check! Moo noise? Check!

COMMENT

LUCY

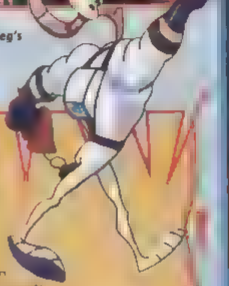
...cynically pre-sumed it would be yet ... my words. Oh I was right about the graphics — they're absolutely stunning ... lord animation — but this ... to flip ... of various ... such as the between-level flying sections, the submarine thrusting level and ... many thinking-mans' bosses to conquer. The whole game is packed with ... for a ... and groovy tunes abounding. And it's hard. Damn hard in places but not quite frustrating enough to stop you coming back again and again and again... Yes this game absolutely oozes addictiveness as well!

... yes. All in all a damn fine game — possibly the best platformer ever — and well worth a look by everybody.

RUMBLINGS FROM THE GROUND

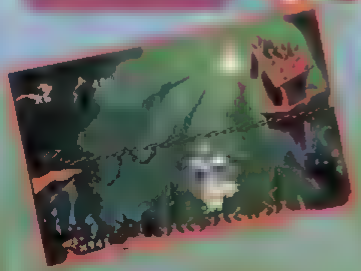
Now a cartoon wouldn't be a cartoon if it didn't have bangs and crashes. All kinds of squeaks, pangs and thuds punctuate the plot forms of peril. And to give ol' Jim more personality, he shouts out cries of pain and glee. Groovy!

Crikey, it's like being trapped in Mystic Meg's big juicy apple.



DRAMATIC INTERLUDES

There's never a dull moment when Jim's in town. As well as from his movements in motion, the team at Shiny have included quirky tricks for Jim to perform when left idle. From his operatic performance to accidentaly blasting his head to smithereens. Earthworm Jim's comedy capers are cease less.



SHINY HAPPY PEOPLE?

So just who are these Shiny people — the programmers of this 'ere platform fest? Well, there are [illegible] of a mixed bunch: half American, half British. Among them they've developed some extremely well-known titles including, Aladdin, Cool Spot, Global Gladiators, Alien 3, Smash TV and Jurassic Park.

GRAPHICS 95

▲ Poetry in motion. Superb animation coupled with stunningly sumptuous sprites and backgrounds.

SOUND 93

▲ [illegible] beat for the work. The music has been beautifully composed, and the FX have to be heard to be believed.

PLAYABILITY 92

▲ One go and you're hooked. Responds like a dream to your every command. Nice.

LASTABILITY 93

▲ This is one tough cookie to crack with a cleverly constructed structure and several locations.
▼ Sometimes it can be a little bit too hard for its own good.

VFM 91

▲ If this is released at around the £40 mark, then this is most worthy of the cash.

OVERALL 93

One of the most beautiful and playable platform games to [illegible] on the shores of Megadrive gaming. [illegible] Shiny's latest.

1ST DAY SCORE
103,000

Accolade's follow up to Bubsy, the 'interactive cartoon' that typifies many a Megadrive platform game.

GAME BREAKDOWN

THE AIM

Make your way through 30 levels of the Accolademen jumping, shooting and playing sub-games for points.

BUB

BSX2

BUILDING TENSION

EGYPTIAN

...ould be retitled 'Pyramid of Fear'. Bubsy faces cursed hieroglyphics whilst ...waterways and the warming flames of papyrus torches...

SPACE

...Bubsy goes boldly where someone has definitely gone before, because the place is filled with Oinker's sinister ...obus electrified barriers. However, there's a neat scrolling shoot 'em up section incorporated within the level...

...it's bum notes or golden passages, as Bubsy faces some crotchety musical instruments ...pitching rides on guitars, saxes and the big bass drums. Bubsy can't get the horn and proves chords are back in fashion...

AERIAL
Washes whiter? Who knows, but this dreamlike level is a departure from the rest of the game. Oinker's minions take to the air in their mesmerizing flying machines: flying pedalloes, dirigibles and bi-planes. Luckily Bubsy is armed to his feline fangs with front-mounted cannon and bombs!
With Bubsy on a roll, who can save Oinker's bacon now?

SUB-U-LIKE

FROGAPULT

A shooting-gallery game played out over a target-filled pond. Catapult the hapless amphibians as they trundle into range.

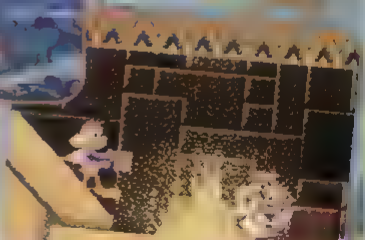
ARMADILLO DROP

Set in the inside of a juggernaut's engine cooling system, featuring a terrified armadillo, this is too bizarre to express adequately in words.

LIQUID LUNACY

A sub-aquatic platform sojourn, but one crammed with bonus bubbles — and the threat of whirlpools. Entered by diving into water.

Hasta la vista, Bubsy.



BUBSY'S BITS

COMMENT

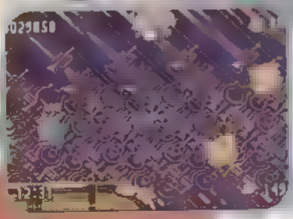
There are those who dismiss platformers as being too alike in [redacted] and action. Certainly this is the [redacted] among many of today's offerings. Yet Bubsy has a certain edge over the rest of the competition, and that edge is called fun. Sure there are faults, some of them irritating – the scrolling coming to a sudden halt after a good sprint and the untimely deaths – but the characterisation is so charming that these faults are soon ignored. Bubsy 2 is what a platform game should be. The levels are immense and stacked high with goodies, and the baddies are nicely stompable. This is not to say the sequel is a tired and traditional platformer, because innovation is present. The level select presentation is beautifully done, but I do have a problem with the experimental music section. If it's platform bobcat action you're after, you can't go far wrong with this offering.

COMMENT

The original Bubsy was just about as frustrating a game as you could find on the Megadrive. Although the character was capable of speed, the game didn't allow you to get up a pace, and accidental deaths were a constant hassle. The sequel has cleared up all the problems in the playability stakes — Bubsy is given a chance to show us his tricks. Overall, this is a lot more involved than the original, 'crammed' is the word I would use for 30-plus levels, three sub-games and a dual player mode. There's a good variety in the graphics, and the stages are huge, much in the same vein as Sonic 3. Although it's enjoyable exploring and using the items, I sometimes think quantity has taken precedence over quality, with some rather bland layouts. That said, there's always some feature to crop up and surprise you. Bubsy isn't exceptional, but it is solidly entertaining, and if you liked the original, you'll be very satisfied with this

FRIEND OR FIEND?

▶ *Left-footed or right-footed? Who can tell? What does it mean?*



CAT RABBIT

GRAPHICS

13

▲ Inventive themed backgrounds, that work best on the mechanical and themed worlds.
▼ Sprites bunching in places, and some colour clash.

SONIC

74

▲ Bubsy talks a lot. A nice range of FX.
▼ The experimental changing music system does not work well.

PLAYABILITY

86

▲ Fluid, fast and nice to handle. Bubsy has a good feel.
▼ Not nasty in the brain department at all.

LASTABILITY

80

▲ A load of levels, and the sub games aren't to be scoffed at.
▼ Too many extra lives and credits than are required.

VFM

85

▲ A lot of development work, at the typically competitive Accolade price.
▼ There is a lot of platform competition out there.

OVERALL

84

A fine sequel, even a fine one. Filled with many strokes. Will be most appreciated by the hardcore of platform addicts.

SKILL LEVELS: 3
RESPONSIVENESS: VERY GOOD
GAME DIFFICULTY: MEDIUM

1ST DAY SCORE: 25,000

ORIGIN

Take a dash of Jurassic Pond 2, a smidgen of wacky Rainbow Bell, a dollop of chums action from Bubble 'N' Stix, and you have the idea.

GAME BREAKDOWN

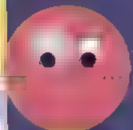
GAME AIM

Bubble and Squeak must work together as a team over 45 levels to release all of the imprisoned animal prisoners and locate the exits.

Bubble: "Squeak, we need to have a man to fluffy animal chat."
Squeak:"Squeak?"
Bubble:"I'm afraid I have some bad news. You see all of our fluffy chums have been [illegible]."
Squeak: "Squeeeeak!"
Bubble: "[illegible] but!"
Sweeter than sugary custard [illegible] mountain of pink fluffy candy floss, [illegible] Bubble and Squeak [illegible] to rescue all the [illegible] Bubble and Squeak [illegible] to Cakeland [illegible] fame, fun, animals, the help of his chum Squeak, the [illegible] game. However it's platform high jinks galore as they explore and help each other through the verdant iced-gem landscape. But this is no simple platform affair, as there's creepy crawlies and puzzles to boggle the mind.

BUBBLE AND SQUEAK

COMMENT

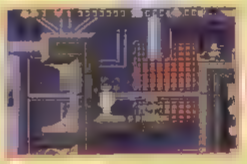


PAUL

On first sight of Bubble and Squeak I had that 'not another platform feeling'. But as soon as I got into the game, I realised that this was something new, something different. Everything is highly polished, from the characters' animated mannerisms, to the control system. But this is no veneer, because under the icing lies an extremely tough puzzler. The character interaction does take a while to get used to and requires nerves of steel, but once mastered is very playable. On a slight downside, the music is essentially the same throughout all the levels, and the backdrops lack variation. But these minor faults dwindle into insignificance when you consider its sheer size and number of levels. In a world of platform clones, I'd definitely go for the cute option.

HELPING HAND

What are chums for, if not to lend a hand when things get tough? He may look blue furry and stupid but Squeak s an essentia part to the pair s success Bubble can position his mate by co ling him and then asking him to stay where he is When in stationary mode, Squeak can perform a number of tricks including giving his baby-faced pal a rocket boost up to unreachable platforms Their acrobatics are used to propel them jointly towards the exit pole on each evel



STARS IN THEIR POCKETS

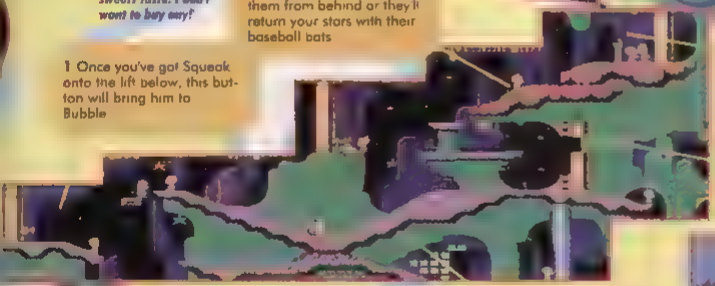
Unlike most other p atform heroes, the two friends don t have the use of a stomp attack Instead Bubble has an unlimited supply of shiny stars to lob at enemies but poor old Squeak s weaponless That is until he comes across a bubble gum machine One chew on this magic bubb e gum g ves him the super power of be ng able to give Bubble a piggy-back whi e at the same time ann hilating enem es with death bubbles

BUBBLE AND SQUEAK

▲ *I don't care how good your special sweets taste. I don't want to buy any!*

4 Penguin alert! Shoot them from behind or they'll return your stars with their baseball bats

1 Once you've got Squeak onto the lift below, this button will bring him to Bubble



5 Home at last. Our two chums celebrate another fine level completion with a hearty handshake

3 Squeak can't jump, so these ramps allow Bubble to spinball him to the next platform

Don't worry I'll catch you, said Squeak remembering Bubble's blue fluffy animal joke from yesterday.

2 With Squeak positioned on the top level, Bubble is free to explore for gems down here

SUB GAME

During their travels, the two chums must locate and collect submersible icons. On completion of the level they are transported into the bonus game, a Parodius -esque submarine blast 'em up. Watch out for those nasty old jellyfish, mind

COMMENT

GUS

Platform games are like wine, are they not? Sometimes you get something in a fancy shaped bottle that's pink, ever so fizzy, and ends up tasting like cat's pee. Likewise, you get some fancy platform games that promise much but offer little. And then you get unassuming little vintages like Bubble and Squeak. Behind the bland exterior is a rocket of a platform puzzler: full-bodied, subtle and bound to mature over time. There's acres of satisfying gameplay, with strategy mixing with action in the same way as the much underrated James Pond 3. It's very much like a Millennium game, but with clever additions, like the rising water level, which adds a frisson of panic to many of the later levels. The assured presentation, crisp graphics and responsive control make this a Chateau Mouton-Rothschild, not a Country Manor. So light, subtle, so buy it!

HIGH TIDE WARNING!

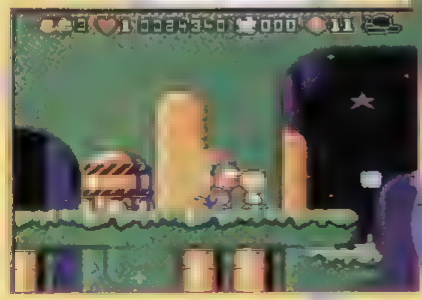
The absence of an on-screen timer may fool some into thinking this is a lackadaisical affair. Not so, a more original approach has been adopted with the water level that rises inexorably, threatening either of the characters left on the lower levels

▲ 'That's just fine! I offer you a friendly piggy-back, and you let one rip!'

▲ Our two heroes have come a cropper in Claire's reserve chocolate valley.

POD PEOPLE

Dotted around the levels are the nasty incarceration pods holding the fluffy animals captive. Our two boys must gather up as many gems as their little handy-pandies can carry. On reaching a pod, Bubble releases a stream of gems to break the lock and free the cuddly toys



GRAPHICS

84

▲ Extremely polished, with intricate main sprite animation.
▼ The backgrounds are a bit on the samey side.

SOUND

70

▲ Jolly, feel-good tunes that bounce quite nicely along.
▼ Not a great deal of variation in the music or FX

PLAYABILITY

89

▲ A superbly smooth control system that copes very well with the second character format.

LASTABILITY

87

▲ The continues/password combination makes progression a little too simple.

VFM

92

▲ With oodles of levels, bonuses, and a sub-game, it's worth the reduced tag.

OVERALL

90

A big nasty wall of a puzzler clothed in box-lamb clothing with a novel approach to platform gaming.

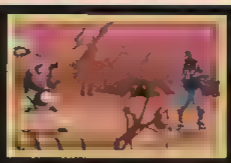
VERDICT
Studied hard at least' can no longer along with the likes of SF2 and MK2, with ambitions to make it big this Autumn.

THE BIG AIM
Guide Shaq through the perils of the Second World to get an audience with Ra's plans to enslave the world, by beating up his aides.

Long ago in the para-dimensional world of the Second World, the Sorcerer Sett Ra reigned supreme. Unsatisfied with just one world at his command, Satt decided he wanted Earth to add to his collection. With his latest genetic concoction, Sett prepared to destroy the Egyptian empire, placing him firmly on the throne. But the humaneid heir to the throne, Ahmet, escaped to enlist the help of Leetsu, his grandfather. In a momentous conflict, good triumphed over evil, exiling Sett to a life wrapped in bandages.

The year is 1994. Humanity has lived free from the threat of Sett for many fruitful years. But for all these years, the Beast has lurked in the shadows stalking descendants of Ahmet. Finally, having abducted the boy Nezu, Beast can deliver a means for his master to return. While on tour with his team in Tokyo, Shaq discovers a shop full of antiquities. This is no ordinary shop, for the owner tells Shaq of the danger that faces future generations, and being a bit of a hero Shaq jumps in to help. Quite how slamming a few dunks and being tall will help, though, we don't know...



△ Certainly Sir, of course I can give you a light.

△ Anrak pulls off a teleport punch.

△ Shaq looks intelligently on as a fellow special bounds his way. Ouch!

SHAQ

ATTACK MODE

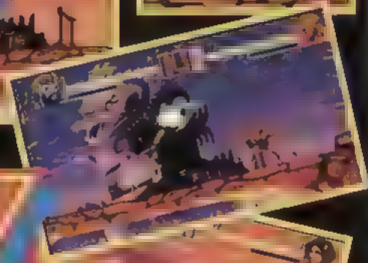
Aside from the 'Story Mode', the game can also be played in either Duel or Tournament modes. The Duel is the standard one-on-one where you can specialise and practise specific characters. In the Tournament, eight characters take on an extreme dislike to one another and brawl to the last man standing.

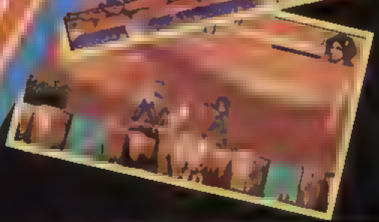
FURIOUS

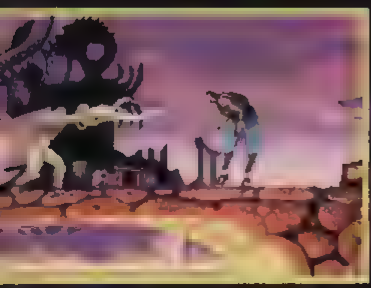
If you're feeling a bit cocky, you can taunt your opponent to really get on his or her goat. The more a character is taunted, the more hot-headed and irrational their fighting style becomes. In Fury mode the character can charge with added speed and force but significantly less accuracy. Beware though, as the target of your fury can strike back causing equivalent damage.

▼ Suti's little helper, the Beast, lets rip a devastating energy blast.

▼ A double-whammy from the Colonel's power suit.







COMMENT

PAUL

From the outset, Shaq Fu is sailing very close to the wind in terms of the credibility stakes. A basketball player as the hero of a beat 'em up is not your everyday occurrence. But I have to say that any doubts in this department soon vanish after you get into the plot and action. Delphine have done a superb job on the movement and feel of the game. The characters are animated using loads of frames and detail, giving a more substantial feel than Conrad in Flashback. The backdrops have been meticulously designed, and even change their colour palette if previously played. But — and this is a huge BUT — the sprites are criminally small. And being so vertically challenged, the special moves can look rather pathetic. Similarly, whilst on the subject of specials, this is pretty much all the gameplay consists of, and bouts are easily won by repeating a particular move. As such, battles between characters often seem a little hit or miss and never seem to feature the same skill necessary in the likes of MKII or SSF. A good effort, but Shaq Fu loses out in the playability stakes slightly and is thus no real competition as MKII prepares to steal the throne.

HIS STORY

Shaq certainly has been set a tough task, and to think he was only playing in a charity match in Tokyo. After leaving the shop, he finds himself in the Second World, consisting of three islands, each of which are split into a series of smaller stages. From Temple to Mine Wasteland to Gargoyle's Peak, Shaq has to finish all of the mini-bosses before he can cross the bridge to the next level.

COMMENT

Polish immediately springs to mind when you first turn on Shaq Fu because, as we've come to expect from Delphine, the presentation looks as if it's had a good going over with Mr Sheen. The intro screens are all really clear and the in-game backgrounds colourful and detailed. A lot of work has obviously gone into the sprites as well, it's just a shame they're so small. I know Delphine wanted to go overboard on the animation so had to cut down the sprite size for the space, but what's the point of having exquisite animations (which this game has) if the sprites are too small for you to appreciate them? Playability-wise, on its fastest speed Shaq Fu really gets your juices flowing with its frenetic action, but the game relies too much on special moves — victory often coming by repeating one over and over — and comes across as quite wooden otherwise. There's a BIG programming flaw in the one-player game too — on EASY and NORMAL setting, you can beat any opponent by repeatedly pressing the B button. Occasionally you might have to jump as well but such a fundamental weak spot in the CPU player's intelligence shouldn't have been allowed to slip through the net. Apart from these gripes though, it's a good and competent game in two-player mode but far from a classic.

DELPHINE MACHINE

Renowned and respected for Flashback, the French programmers have now turned their hand to the beat 'em up genre. They have used an advanced version of Rotoscoping to digitise the characters directly from full-costume to animated sprites.

▲ Mankina goes for an arm? Whatever next?

▲ Diesel grapples with Kaori over the fifty on the floor.

▲ It's an energy cage for Asrock courtesy of Beast.

▲ Shaq, you are huge your mamma did spank rocks!

GRAPHICS

85

▲ Spectacular character animations, and lush backdrops.
▼ The character sprites are a little too small and consequently not as impressive.

SOUND

83

▲ A good quality collection of tunes and fx fashion influences.
▼ The battle FX lack meatiness.

PLAYABILITY

79

▲ Fast, fluid movements.
▼ The controls are sluggish and the special moves take a vital split second to work.

LASTABILITY

80

▲ The mixture of quest and beat 'em up gives lasting appeal.
▼ The special moves are few and far between.

TTM

75

▲ A solid product, with plenty pushed in.
▼ But it doesn't quite have the edge to make it spectacular.

OVERALL

79

It looks could kill this game would be Jack the Ripper but sadly the small sprites and some fundamental gameplay faults stop this being the classic it could have been.

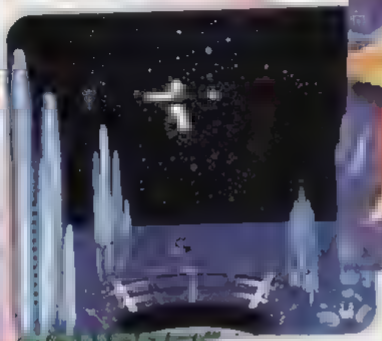
Which computer(s), if any, do you own?

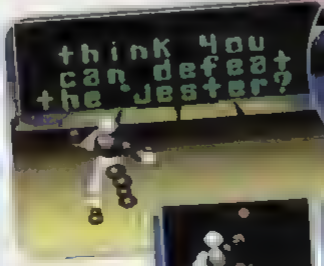
The balls are rising. Somewhere in the tortured imagination of their leader and mentor, Johnny, fearsome spheres are joining to form humanoid shapes. Warlike, with all the instincts of Cromwell's roundheads, these fearless ballz have balls in abundance.

Their mysterious captain, The Jester, invites you to play ball in a 3D fantasy sport arena. Each of the sixteen fighters are well equipped with athletic special attacks. An air of hysteria and menace surrounds the bizarre atmosphere of this strange ring, set aside for ball-on-ball combat. All laws of nature no longer seem to apply. Apart perhaps for one — survival of the fittest. The ball is in your court.



SPHERES FOR FEARS

The setting to Ballz differs from other beat 'em ups most noticeably in the arena, which extends in three dimensions. As a result the D-pad is used exclusively to work around this circular fighting zone, which is viewed from a camera angle which changes subtly to catch the best view of the action. The combatants, as you can see, are constructed from a dozen or so simple spheres, combined and animated into discernible characters. The effect of depth is cleverly simulated by the spheres growing and shrinking as characters 'approach' the camera.



▲ Actually, now you mention it, yes I do...

HY-SPHER-IA

Eight of the sixteen fighters are selectable by one or two players, the last eight being retained as boss characters much like the original Streetfighter II machine. Each character has around eight to ten special moves. Would you believe a pile of little circles could produce characters as diverse and idiosyncratic as these?

[illegible]NK

Caveman or sportsman? The waddling dwarf with the club whose eyes are always on the Ballz.

[illegible]

The clown prince of combat. With a clutch of crunchingly comic moves.

[illegible]

Speed-balls. Turbo-charged doom spheres. Fast globes with the power to defy gravity. Frankly.

[illegible]

The Sumo spheres, which translates as big fat globules of heavyweight fighting action.

HIGHLIGHTS
PIN AND PUNCH
HAMMER THROW

Lydia considered life without Mike and found it strangely enjoyable.

COMMENT

[illegible] out [illegible] the [illegible]

[illegible] Ballz is [illegible] 'em up [illegible] realistic [illegible] ing lots of [illegible] combos [illegible] important [illegible] special moves [illegible] good to look at [illegible] off, and the [illegible] of 3D [illegible] up [illegible] If I [illegible] when [illegible] shouldn't, but this never really gets in the way of the action. Nice one Accolade.

BIG GLOBAL DOMINATION

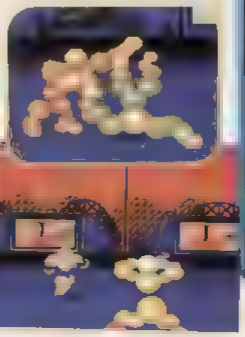
The fight's victor is entitled to control an instant replay detail ing the entire last round Amazingly, this can be rotated to be viewed from any point on the arena circumference, magnified, slowed down and speeded up, and even elevated to an overhead view. Also, during play, the monitors show pictures which often match your special attacks Divine's bottom spank is marked with a howling mouth, and Kronk's baseball bash is followed by the appearance of a stadium

Fearsome, most muscular of the orb-people, but not when his little horn balls slip off his head

Ballz without brains, but plenty of brawn. Lumbering and slow, but don t get too close

Is it a woman or a man with enlarged pectorals? The ballular anatomy of this dirty dancer is not that precise Wicked specials, though

Hopelessly addicted to Um Bongo, which explains the extreme monkiness of his combat decorum



COMMENT

Ballz is magnificent. A novel idea for a combat game, beautifully executed. What the simple graphics cannot convey here is the wonderful animation, that instantly portrays real characteristics. When not actively controlled by yourself, the fighters shift restlessly, still accessible Yoke capers, arabesques. In play, many of their moves are ingenious and spectacular, bottom spanks and tree-swinging replacing bland old fireballs and dragon punches. I can predict that new players will be frustrated for a day, thinking the actual game is 'hit and hope', but learning the characters yields results. Finding his new attacks, like Boomer's self destruct lengthens the lifespan of Ballz. Play is fast but also fair, and skilled players can put in dazzling performances which are well worth watching on the replay system. The closest thing to Virtua Fighter you will see on an unexpanded Megadrive, and a fab, fab game.

DARS

GRAPHICS

86

– An effective method of simulating 3D by shading and scaling

▼ Rather bland surroundings

SOUND

87

▲ The wacky, vaguely musical samples really suit the slightly unhinged feel of the game. Good tinny FX.

PLAYABILITY

92

▲ Very fast, with a rewarding visual performance from your fighter

▼ Some moves don't 'connect' very convincingly.

LASTABILITY

89

▲ The two player mode is the best part of the game. It really is a gas.

▼ The computer is one-player is not as tough as other combat games.

VFM

92

▲ With other original sounds heaving sentiment at fifty pounds, this has got to have an edge on price.

OVERALL

91

Someone, thankfully has found their marbles, and created this demonic, surreal, wonderful game of Ballz.

1 MEGS

ORIGIN

Following hot on the heels of the success of Doom on the PC, Zero Tolerance adapts this format to the Megadrive.

ORIGINALITY

REFLEXES

GAME AIM

Guide your recruit around the maze-like Space Station, High Rise and Basement, on a mission to rid the planet of invading alien terrorists

Picture a man. He could be any old Joe. A face in the crowd. But this is a man with a mission. A secret mission. A mission on which the future of humanity depends. It's a good job he's got some guns and stuff then, eh?

In Accolade's latest adventure the player is launched into a labyrinth of 3D perspective corridors packed full of aliens who want to pump you full of lead. As a Special Forces operative, an excellent sense of direction, the reflexes of a cat, (oh, and deep pockets to keep all of the stuff you find) are essential qualifications.

The scenario covers 40 levels of labyrinthian mayhem, ranging from the smoky depths of the outpost's basement, to the final battle at a location no less grand than the alien's space station. But beware if you have a nervous disposition, as you never know who lies in wait just around the next corner.

ZE TOLER

Okay bozo stick 'em up... I said stick 'em up... aaaaaaargh!

COMMENT

PAUL

At long last some fresh gameplay! Megadrive owners have been kept waiting quite long enough for this game format to hit the stores. And I'm glad to say it's a pretty decent effort on Accolade's part. This is challenging stuff for the Megadrive, and rather than try to tart up the graphics, using loads of memory, they've concentrated on the gameplay. There's great atmosphere and a real sense of the unexpected. Even when you think you've cleared a room, another little nasty jumps out of the woodwork, taking you completely by surprise. I was, however, a little perplexed as to the need for the stonking great ID cards on-screen, and disappointed by the inadequate size of the health meter. But these are only minor quibbles in a game that really is worth some investigation.

IT'S LINK-TASTIC!

In the fine tradition of Doom on the PC, Zero Tolerance also contains an option to link up two machines. Accolade have developed the cable that joins the two machines via the second joy port, relaying information about the other player's character. But beware because in this mode there are double the aliens and the same amount of power ups, turning it into a alien blasting free-for-all. With both of the machines running independently the choice is yours as to whether you team up or go your own separate ways, but as they say, two guns are better than one.

COMMENT

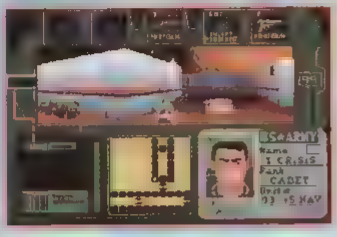
GUS

I'm really quite surprised how good this is. We're conditioned to think the likes of Doom are possible only on big PCs, but Zero Tolerance, while lacking the refinement of that classic, still conveys a great 'hunt and kill' atmosphere. Tension builds up as you skim the corridors, the graphics moving with adequate speed and smoothness to keep the whole thing playable. Nice touches, like recoiling corpses and blood-smeared walls make it appeal more, although Zero Tolerance has a scrappiness of presentation which is most apparent in the link mode — a fantastic idea that is woefully underdeveloped. Cooperative play is great, but surely a duel option could have been added? Enough gripes, though, about one of the few original gameplay options for Megadrive owners this year.

THE SHORT STRAW

It's a dirty job but somebody's got to do it and these are the boys who are going to take on a whole alien invasion! There are five of them but only one character at a time can be controlled so when he kicks the bucket he steps a replacement

▲ *Trained killer seeks attractive lady with similar interests for fun with a gun and possible genicide.*



GUN FIST

You begin your mission with nothing but your bare fists to stem the enemy tide. But you ain't gonna get very far like that are you? So before you get really stuck in it's absolutely essential to get tooled up. Scattered around the various locales are a manner of bullet spraying machinery from the humble hand gun to the mighty rocket launcher. It ain't all guns and glory though as numerous obstacles have to be tackled with equipment found during the [illegible]

GRAPHICS

74

▲ Ambitious work, especially the texture mapped backgrounds, plus good use of the SVP chip.
▼ Sometimes jerky and close-up, enemies become blobs of pixels.

SOUND

80

▲ Some nice meaty FX for the guns and explosions.

PLAYABILITY

87

▲ Exciting gameplay with plenty of action aboard.
▼ The control system doesn't allow sidestepping, and direction tends to drift left and right.

LASTABILITY

85

▲ With tons of levels and a tough difficulty setting, this will last even the finest [illegible]

VFM

88

▲ [illegible] the cost of the chips, this is very reasonably priced.

OVERALL

86

A real kick up the backside for the Megadrive — machine-like-ups! 3DO Whatever will they think of next? Revolutionary stuff and well worth a look.

SKILL LEVELS: 1
RESPONSIVENESS: POOR
GAME DIFFICULTY:

Reach Tournament match round.

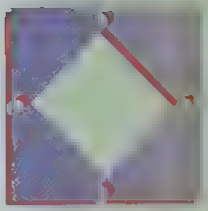
Developed by Hi-score Productions as part of the EA Sports range.

ORIGINALITY

Keep the ball in play within the court lines and above the height of the control net. Wrestle to tournament status.

T is for tenacity: a dogged determination to persevere in the face of adversity. T is also for triumph: winning through against all the odds. T is the signifying letter of tricky, also. Difficult, demanding, challenging, aggravating.

T also stands for tennis. A royal game, steeped in heritage, and one with which the British have a love/hate relationship. This year we slumped to a new low. Britain's team slipped from the first division of the Davis Cup nations into a backwater of mini-African states and principalities. Chin up, though. The skills we lack at tennis, we make up for with the top video games players in the world, who can get their laughing gear round this little number



INTERNA TOUR

Everyone happy...

COMMENT

LUCY

EA was always going to be fighting an uphill battle with IMG International Tour Tennis. With Wimbledon over and done with, most people are now sick to death of tennis and Codemasters' timely release of Pete Sampras Tennis was a hard act to follow. Unfortunately this game doesn't cut the mustard in any department. The players are nicely drawn and are obviously programmed to move with fluidity — they do to a certain extent, but not unfortunately, in the direction you want them to go because of some irritating control problem. They've got some top players included in the game such as McEnroe and Lendl but none have any personality or noticeable playing style of their own which is a terrible waste. The electronic speech is appalling and the computer players predictable. This is mediocrity at its most average so if you want a tennis game go for one of the alternatives.

SHOT ACROSS THE BOWELS

Tennis is played as a matter of shots. You have to time the ... to force your opponent to ... the court. Here are the ... shots you can choose from:

A (tap) DROP SHOT
A (hold) LOB
The drop ... your opponent ... him to the net. There is a high chance of it striking the net, though. A perfect lob will go ... over the head of an opponent who is dominating the net.

B (tap) SOFT SLICE
B (hold) HARD SLICE
Slice shots travel high and deep into the opponent's court. The harder slice has more spin ... more used to pass a camped ... net-placed opponent.

C (tap) LIGHT TOPSPIN
B (hold) HARD TOPSPIN
Topspin makes the ball travel low and fast, and also bounces ... to return. A diagonal crosscourt topspin shot can be very hard to intercept.

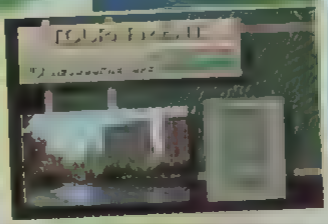
IMG ATIONAL TENNIS

EYEFUL TOUR

There are 32 players to pick from on the tour roster, all of them real players from the present tennis circuit (you can forget McEnroe, Borg or Vilas Gerulaitis). But you'll search in vain for any big stars of the moment apart from Henri Leconte, or indeed for any women. The 32 encompass a wide range of skill levels, but the game gives you no impression of how they are ranked.

▲ *Cut along the dotted line to make your cardboard tennis court.*

▶ *At your service...*



COMMENT

GUS

EA's tennis game falls way below the standard of the rest of the four-player sports range. When the label revels in its authenticity and comprehensiveness, some of the omissions are glaring. Where is women's tennis? Where are the stats allowing you to work out the good from bad players? Also, the programmers should be aware of the rule where a service strikes the net and travels over, bouncing within the service box. This should not be a fault. The game is a let down for other reasons. The players move limply, seeming to resist your efforts and their slow response to command ruins the game when rallies become brisk. Easy opponents are not calibrated by any subtle lapses of skill — they basically don't bother going for the ball, whereas the good players play a tiresomely predictable net game. There are alternatives which are more fun: Pete Sampras, and more realistic: Davis Cup Tour. EA Tennis, with its dalek speech and zombie-esque gameplay should be banished to court 14.

FEET OF CLAY

There are clay, concrete, grass and indoor surfaces which affects the speed and bounce of a ball. It's natural for players to have an aptitude for certain surfaces. The 12 venues of the world tour cover the range of surfaces.

GRAPHICS 69

▲ The player sprites are thin, but well designed. The presentational graphics are okay.

▼ The courts are bland and the animation unaccomplished.

SOUND 67

▲ The ball and racquet effects are very good. A range of Rob Hubbard tunes cover the menu screens.

▼ The speech is diabolical, entirely devoid of human character.

PLAYABILITY 64

▲ Play is strategic rather than reflex. A wide range of tennis shots are covered.

▼ The execution is poor. Play is unnecessarily frustrating.

LASTABILITY 57

▲ The structure of the games accrues a lot of playing time, and there is the four-player option.

▼ Not enough fun to be a long term favourite.

VFM 64

▼ Whatever the final price, you'll need to shell out for a four-top: the Pete Sampras J-cart has not included.

OVERALL 62

Well down the pecking order of tennis games, due to problems of control and playability, as well as lackadaisical execution.

ORIGIN

It is only natural that the Megadrive's little brother should get to play with the same toys, isn't it?

GAME BREAKDOWN

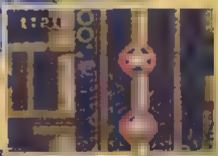
GAME AIM

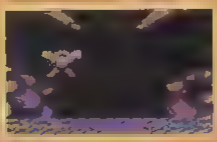
Make Sonic curl up into a ball and wheck him around pinball tables from hell in an effort to defeat bad 'ol Robotnik.

COMMENT

GUS

The Megadrive version was a flawed masterpiece, the Game Gear version's flaws don't seem to matter so much. It's cool. Sonic Spinball is a classy outing on the Game Gear, the sort of stick in and burn out kind of game that makes a train journey a pleasure and a lunchtime fly by. There are only four tables, but you'll be struggling with the non-stop nature of the action. The tables even seem bigger, probably due to the screen's smaller area, but I've no real complaints.





SPINBALL

MEGA GAME

COMMENT

PAUL

Game Gear owners want good quality solid games that are fun on the move, and this is Sonic Spinball to a tee. Whilst it may not have the panache and quirky features of the Megadrive version, it does have everything else. The impressive speeds and scrolling are dealt with very well by our 8-bit friend. Similarly, the tables have been successfully trimmed and simplified to deal with the smaller screen, and all the humour and fun of the original version have been maintained. Admittedly the levels are on the sparse side, but my feeling is that this is more in tune with the Game Gear anyway. Game Gear owners have been crying out for this kind of game for ages. Buy it.

GRAPHICS 91

+ With plenty of depth, humour, and variation, the graphics' standard compares well with the Megadrive.

SOUND 89

+ Ace pinball tunes and FX that keep up with everything on the table.

PLAYABILITY 91

+ Fast, fun, and furious with a highly addictive edge.
- The later levels tend to be on the difficult side.

LASTABILITY 83

- As with its predecessor it stumbles in this department. It needs loads more levels.

VFM 89

+ A good price for a really top handheld game.

OVERALL 90

This is the ideal entertainment for a handheld. A good, clean game format stacked high with Sonic frolics.

LAST DAY SCORE:
MOLE WORLD STAGE 3

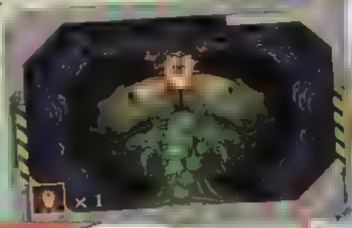
Taz is one of Warner's Looney Tunes characters, and has already appeared on a Megadrive platformer.

GAME BREAKDOWN

As the title suggests, escape from Mars and the other planet terraies by finding the exit...

The little green zoo keeper was not a happy man. As custodian of planet Mars' only zoo, he was fighting a losing battle. The Daleks were refusing to mate, the Cyberman had a rusty codpiece (again), and the Mysterons had come down with sore throats. Besides, people didn't visit zoos anymore. They'd rather go to the cinema and watch rubbish like 'Invaders from Earth'. Something had to be done. A new attraction had to be found.

The 'keeper leafed through his book of rare earth creatures. Under 'Hairy Antipodeans' he spotted an interesting creature with bushy eyebrows and a menacing leer. But they already had a Rolf Harris somewhere. But there! A strange species with the promising title of 'Tasmanian Devil'. He would have one of them, and from Mars [illegible] would be [illegible]



♪ L'escargot a go-go!

COMMENT

Most players want through the first Taz game like a hot knife through butter. The sequel is quite a bit tougher, but that's cold comfort when a platform game is as cold and calculated than this. Everything is set to appear in the same place. Although you can whizz round the levels like a turbo-charged Testarossa, the sparse levels give the game the pace of a Reliant Robin. Graphically, it's still pretty, but not breathtakingly so. A rather perfunctory release from Sega.

ESCAPE FR

YOU SPIN ME RIGHT ROUND

Taz's manic spin attack has multiple uses. Foremostly it's an attack manoeuvre. Striking most morsels and spin defeats them, though some require several hits. Secondly the momentum from spinning allows Taz to climb walls or even to defy gravity and travel across the ceiling. Lastly in areas of soft earth the spin enables Taz to burrow his way to new locations. Spin also makes Taz faster and enables him to jump further.

TAZ 2

HARD TO SWALLOW

Taz's method of examination is digestion. In other words, he'll eat everything he finds. Steer him towards useful objects like energy giving birthday cakes and credits and away from bombs and dynamite. Other oral highlights include the box of rocks and petrol can which project stone missiles or fire from his mouth respectively.

COMMENT

The original Taxmania was a big hit because it offered a new standard of graphics on the Megadrive. Two years on, the visual impact has gone, and although this sequel is harder, more inventive and better designed than the original, it suffers from being old hat. Not only that, but it's a bit of a chore to play. You're forced to think your way through each stage, but once the strategy to complete it is in place, you can traverse levels with your eyes closed. Only the bosses test your reflexes. By no means bad, Taz 2 clearly lacks the pace of Sega titles like Gunstar Heroes, Sonic 3 and other platforming greats.

DRINK ME

Taz encounters some Wonderland-esque potions in his travels. These alter his size either enlarging or diminishing him for a short time. A tiny Taz can't collect items or kill enemies, but can fit in places normal Taz cannot. Just take Big Taz on the rampage.

GRAPHICS 86

▲ An important & portrayal of the cartoon character as you could hope to expect. Many nice background scenes.
▼ The first level looks a bit tasty.

SOUND 71

▲ All that poppy Taz Away style music sounds sooo Sattva.
▼ This is the Nineties.

PLAYABILITY 72

▲ Some sections offer a reasonable challenge.
▼ The design is rather pedestrian, slow-paced and not too much fun to negotiate.

LASTABILITY 70

▲ This will take a lot longer to finish than Taxmania.
▼ Like a shell guest at a party, your attention starts to drift almost immediately...

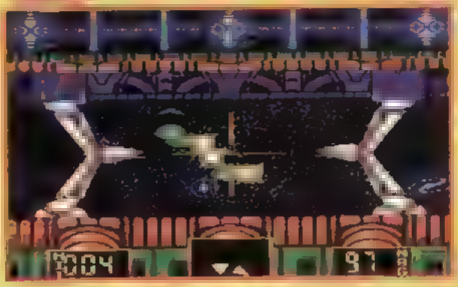
VFM 75

▼ Those who want Taz on chip could pick up the original for cheap. Old Chameleon is also similar at a bargain basket price.

OVERALL 70

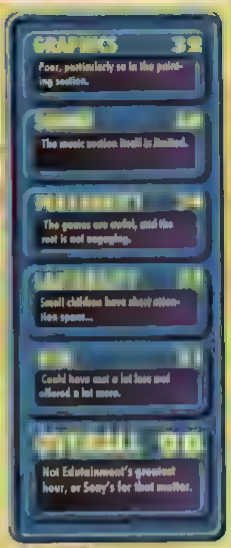
Not a bad effort at all, but in the jungle atmosphere of releases today, Taz just doesn't have the teeth to bite you.

fun 'n games



Perhaps the best and worst thing about being a kid is 'children's portions'. Picture a visit to the Little Chef, and imagine peering at the wipe-clean plastic menu. You always got handed the children's menu, and it was always small portions and boring things.

Now, when you're a grown up, sometimes you long for burger, egg and chips, instead of l'escargots and Cajun guinea fowl. But does the same apply to games? Can the simple fare on offer from Sony's edutainment package interest the average reader of the big words that appear in MEAN MACHINES?



GRAPHICS 32
Poor, particularly as in the painting section.
The music section itself is limited.
The games are varied, and the rest is not engaging.
Small children have short attention spans...
Could have cost a lot less and offered a lot more.
Not Edutainment's greatest hour, or Sony's for that matter.

LOOK AT MY PACKET

The package covers four broad areas. These are selected with a pointer on the options screen. You can pause at any time, and use icons to exit a particular section

STYLE

A bizarre inclusion, perhaps to add a balancing 'feminine' segment to match the 'male' games bit. It has two sections. Styl n fun is basically dressing up a digitised dolly, Mix and Match is the old seaside game of making funny composite people out of a set of top, middle and bottom thirds

Oh my God! Freak electrical charges have caused Gus and Lucy to morph!

MUSIC

A simple single stave music creation package, capable of producing short tunes with chords of up to three notes. There are plenty of sampled animal and tinkling noises, and a selection of pre-written tunes, most of which you will recognise

GAMES

Two simple coordination game Mouse Maze is a simplistic Pac Man variant with cats and dogs Space Lazer is an equally simplistic aim and shoot game

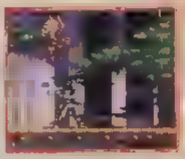
THE PIRATES OF DARK WATER

Based on the fab Saturday morning cartoon, the Pirates of Dark Water takes the three animated protagonists on a platform leaping adventure to save the world of Mer. The evil gunk, known as Dark Water, has risen from nowhere and is consuming the good and wholesome people of the land.

The only defence from global destruction lies in the recovery of the treasures of Rule. Unfortunately for our three heroes, the gems have been scattered all over the shop, and to make things worse, a no-good pirate, Blath, has entered the race for the gems to serve his own mischievous purposes.

NIDDLER



The monkey-bird? Oh yes. A cross between an orangutan and a sparrow, Niddler is the guide to this strange and treacherous land. You can call on him to fill you in on confusing situations, or alternatively to give you a lift back to the start of the level, where you can select another more suitable character to finish off the leve

COMMENT

I was an absolutely huge fan of the cartoon, which makes it all the more depressing to see such an average platformer come from an already great product. The characters from the series have been reduced to bungling level leaping sprites with clumsy attacks. Any loading appeal is found in the fact that it does have a certain air of the cartoon. But once again it's a case of shoddy programming resting on the laurels of a license.

Tell me where the jewels of Rule are old man or I'll pull your beard off — whisker by whisker!

COMMENT

Oh dear, mediocrity rules okey. I did actually enjoy this game for a little while but although it's graphically and sound it's miles too easy at first, much too hard later on, you can only really progress when you play as

LUCY

are crap, there's absolute

£39.99 is

GRAPHICS 74

The presentation's loyal to the cartoon but the main sprites lack flexibility.

SOUND 65

Effective sound effects but what happened to the Isle TV show tunes?

PLAYABILITY 65

The locations are varied but several of the characters can be erratic.

LASTABILITY 68

The early levels are ridiculously easy, then impossibly difficult in later stages.

[illegible] 63

A price tag that should be applauded. Shame about the game though.

OVERALL 66

Another original idea stuffed into the shackles of sub-standard platform

THE THREE BUCCANEERS

It takes a certain type of person to complete some of the levels, and this is why you have the option to control all three of them. Each has individual talents, Ren being the all-rounder, Tula the more agile, yet with less stamina and Ioz the slightly slower, but strongest of the bunch.

THE ROCK'N'

We are two. Great, isn't it? Two years ago, MEAN MACHINES SEGA was launched with the promise of being the biggest and best mag covering the format. Happily, we've succeeded, and the figures show it — we're the best selling Sega mag of all. We know many of you have been loyal readers, and contributors. For you, and for others who want to catch up with history, and learn some REALLY behind the scenes stuff that was never meant to be told, join us on our nostalgia trip...

ISSUE ONE

The launch of MEAN MACHINES SEGA was presided over by Jaz Rignall and Richard Leadbetter They both knew they had to get it right, and they were both cocking themselves MEAN MACHINES was already two years old by that stage, and had been a wild success story. But with the launch of the Super NES, it wasn't practical to cover so many formats in such depth, so the decision to split was taken

The Nintendo part of MEAN MACHINES became NMS, the world's first official console mag MEAN MACHINES SEGA was to stay independent. This inevitably led to complaints from readers, who thought that NMS was 'biased' and that both mags slagged off each other! This was nonsense, since both mags were written by the same pool of writers

The Editorial team at that time looks massive, compared to today Jaz had been with MEAN MACHINES from the start as Editor, and Richard had been his Deputy for a year Oz, our faithful Art Editor had also been with the old Mean Machines from the start

The reviewing was handled by Radion Automatic and two whippersnapper staff writers, Paul Davies (who later moved to NMS) and Angus Swan Incidentally the Dep Ed of NMS was a guy called Steve Merrett, but we don't know what happened to him. Rad had arrived a year previously, when his cheeky cartoons of the team sent in to Yob had led to a job offer from Jaz As 'he wasn't doing anything else', as he puts it, he accepted and MEAN MACHINES had a Senior Staff Writer

The Design and Production side were just as important Production Editor was Andy McVittie, die-hard Northerner (now Editor of NMS) who was always talking about Parkin. However, he did write very funny bits for the Editorial page Oz was joined by Dave Kelsall, an ex-scooter boy and psycho-billy band member who had previously designed hot-air balloons It should have been chaos

NAUGHTY VIDS

The first issue, which featured Michelle Pfeiffer in black latex on the cover was a bit of a corker, it must be said. We never featured Michelle or rubber on the cover again, which I think is a bit of a shame We also had a cover-mounted video, an unparalleled cover gift, which featured the most awaited game of 1992 — Sonic 2

Inside we had loads of news for games which then took ages to appear (Jimmy White's Whirlwind Snooker, for example) Review-wise, there wasn t much of note, apart from a really dreadful Smash TV conversion for the Master System, and a horrible spoof sports thing called Aquatic Games. The strange thing about that one was that everyone became addicted to it — even though it was poo — and would have big tournaments.

SLAY BELLS

It was definitely the season to be merry as Crimble 1992 approached Issue 2 was dominated by Sonic 2 across all formats Both Paul Davies and Tom Guise (ex-Megatech now of Sega mag) were almost hospitalised by the game Paul for his delirious enthusiasm and Tom because he borrowed the pre-production chips one night without telling anyone Picture the scene when Paul Glancey, Megatech's Editor arrives in the morning to find probably the only set of Sonic 2 chips in the Western Hemisphere missing! Tom arrives late (not unusual) to get a mega drubbing Ouch!

December saw Lucy join us as Dep Ed, after presiding over a mag called N-Force (now 'tragically' in that great newsagent-in-the-sky) And we were in the mood to party Party One was the Sonic 2 bash held at Hamley's Metropolis. Abiding memories of this 'lavish launch' are 1 Sneaking past the PR woman at the door who was like Edina out of Absolutely Fabulous 2. Oz getting Cathy Dennis' autograph (just as she was slipping down the dumper) 3. Dominik Diamond hosting challenges and being ignored 4 Running out of food and drink someone using a megaphone to tell people to back off from the remaining sausage rolls

"The first issue cover featured Michelle Pfeiffer and black Latex. We never featured either again, which is a bit of a shame."

Then we held our own party just 75,000 people at the Gamesmaster Live event Held in Birmingham NEC (where they make Gladiators) it was a three-day event which left us utterly drained

That Christmas issue was a 15 denier stocking filler We led on Ecco the Dolphin, a huge exclusive on a game which blew Rich and Gus away Add to that World of Illusion, Mega-lo-Mania and Streets of Rage II, and it really was the golden age of Megadrive software

THE NEW YEAR

As expected, things were a little subdued after Christmas Because things were quiet on the games front, a silly controversy emerged at the time Basically, some rival mags (many of which are now pushing up the daisies) were miffed that MEAN MACHINES were getting on so well with Sega, who were regularly inviting us round for tea and biscuits, exclusive reviews and previews, things of that ilk This followed a policy that Sega enforced of not sending out pre-production copies of games for review

Sega was worried about piracy and chip copying, which had happened with Sonic 2 For a time, if you wanted to review a game, you had to do it at Sega's headquarters. To be fair, this situation had been imposed on Sega UK from overseas, and they did everything in their power to provide decent facilities for us journos They also NEVER tried to influence our independent reviews. However, various Editors, who were livid at our Christmas exclusives, tried to suggest we had been 'bought Rich scotched the tiresome rumour in his issue 5 editorial

THE CRUELLEST MONTH

As spring 1993 fell upon us, the big news was the Mega-CD, which Sega kept teasing us with release dates The machine had already been out in Japan for a year and a half, with not a great deal of success, so they were racking their brains on how to make it work here

They marked the launch with

the new 'Pirate TV' campaign an inspired set of TV ads matched by a bizarre poster campaign. The skull and crossbones logo would become familiar for the rest of the year, along with the controversy surrounding one of its first games, Night Trap. The game was a corny but enjoyable aliens-chasing-teenagers romp, but the fact it used digitised video sequences got some Tory MPs and 'family campaigners' in a storm. MEAN MACHINES of course took a more calm view, and defended the game on BBC and ITV.

But we were to have our own holy roller debate with the emergence of Mrs Margaret Shelley, a mysterious, hysterical figure who wrote in to complain about the evil, satanic influence of games. Next month's mailbag was filled with outrage from MEAN MACHINES readers. As Yob said: "Mrs Shelley has certainly stirred up a hornet's nest. Now she can sit on it." But little more has been heard from mad Shelley and her Campaign to ban video games since.

Further celebrity status came with a guest appearance by an emerging north London band, East 17, who came in to challenge the staff. Terry and Brian were good enough lads, but strongly kept big parkas and ski-hats on for the whole time they were at the office. They told us over a drink that they enjoyed the birds and the holidays (they were about to go off to Hawaii). Then their car came

SUMMER LOVIN'

The summer of 1993 was surprisingly fruitful for games: Shining Force, Cool Spot, X-Men, Land of Illusion and, of course, Jungle Strike rolled through the review process. MEAN MACHINES was also putting together its Turbo Tips video, which proved to be sheer torture for Paul and Gus (Rad had now left the mag to work on NMS).

At that time Rad, Gus, Paul and Tom Guise were shipped off do some training in Peterborough. It was like going back to school for three days, making boring pencil marks in the margins of photocopies. The boys worried themselves with whether the company would pay their meals if they ordered a la carte and emptied the mini-bar, and just what exotic range of channels the cable TV offered.

BANANA SPLITZ

The run up to Christmas 1993 was both exciting and stressful. Mortal Kombat and Streetfighter II were slugging it out for the beat 'em up crown. Most other mags were beguiled by Acclaim's marketing, but we came down on the side of Streetfighter, and later on most admitted we were right. However, witness the recent rematch.

Rich had been disappearing for days on end with Jaz and the rumour was a new project. It became Sega Magazine, an ambitious new launch that would complement MEAN MACHINES and seal an official relationship with Sega.

All well and good, but what about back at the ranch? The MEAN MACHINES platoon had been reduced to just Lucy, Gus and Oz, as Paul Davies moved to NMS, Rich took Sega Mag, and Jaz announced a shock departure to move to California and work for Virgin Interactive.

Putting out the 148-page Christmas issue under this pressure was taxing, but we were justly proud of the result, emblazoned with a world exclusive of Toejam and Earl 2, one of the best platformers of the year. And then, on the week before Christmas, Megatech was sold.

The decision was a shock and a surprise. But a small reader ship, meant the team's talents could be used more profitably. From the Editor's seat came Steve Merrett, who assumed Rich's old position, while Tom went to cause trouble at Sega Magazine. The new magazine was launched at a glittering do at a posh west London club (so glittering we had to wait in the pub next door eating cheese rolls and pasties while they got ready). It was the cap off event of the year.

SINCE THEN

The Christmas period was a bruising time for Sega and Nintendo, it transpired. A lot of people moved on from their jobs in the early part of the year. Other mags were being gloomy and snipy, printing 'Is the games boom over?' articles. Instead we chose to be upbeat. Konami's awaited Castlevania game, Streets of Rage III, Sonic 3 and Virtua Racing with its SVP chip, showed that game development was very much alive. And don't forget NBA Jam, which was launched at a basketball party in a north London warehouse, where guest 'celebs' Bad Boys Inc. demonstrated they play basketball as well as they sing (ie tragically).

But the first quarter of the year was also a time of mounting excitement surrounding the new 32-bit systems. First the finished specs of the Saturn, and then the surprise announcement of Megadrive 32X. We were in on both, and we'll be there to cover this next generation, as MEAN MACHINES goes into its next two years. Stay with us.

THE HAIR-CUTS OF HICKMAN

forget Elizabeth Hurley, indeed forget Elizabeth Taylor. The most ruthless adaptor of image is our own Lucy Hickman, Associate Editor. This brief follicular showcase, demonstrates the agony and the ecstacy; the triumph and the disaster.

PLEASE REMEMBER THAT R
IN MEGAMART IS AT YOUR OWN R

Got something to sell? Or want to swap games? Do you want something, or do you have a special message? Perhaps you just want a pen pal? Well, whatever you want, the MEAN MACHINES Megamart is the place for you.

For just £1 you can have your very own advertisement containing up to 20 words! Or if you're feeling rich and verbose (look it up in the dictionary), £2 will buy you 40 (count 'em) words!!

So what are you waiting for? Fill in the squares below with your words, pop it in an envelope along with a cheque or postal order made payable to MEAN MACHINES and send it to MEAN MACHINES MEGAMART

MEAN MACHINES, PRIORY COURT, 30-32 FARRINGDON LANE, LONDON EC1R 3AU

ATTENTION!

MEAN MACHINES Megamart is for private advertisers only. Anybody sending in a trade advert will not have it published. It will be ignored, your cheque will not be cashed and no correspondence will be entered into! – However, if you are interested in placing a lineage trade ad, please contact Marie on 071-972 6700 NOW.

Due to deadlines allow up to six weeks for your advert to appear in the magazine.

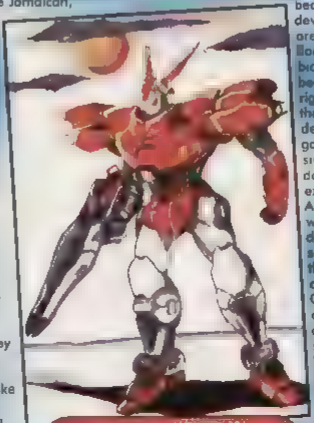
time to answer a few of your snotty scumrags before pushing off for a few weeks in Benidorm, leaving the rest of the team to collapse with asthma in London. By the way, thanks whoever sent me the bogie collection — most tasty. Before I go, I'll tell you about the new government bill I'm sponsoring as member for Birch'em and Hanghimhigh. It outlaws all those previously sneaky acts you think away with!

or farting under a continental quilt and waiting it up by lifting your legs. Sundry o will be tried with the blanket punishment of an enema delivered with a tent peg and sprayed with Impusia 'Avant Garde'. That one was dedicated to all you Silvkrin drinkers out there. If you've got anything for YOB, send it to BACK DOOR DEALINGS, YOB'S MAILBAG, PRIORY COURT, 30-32 FARRINGDON LANE, LONDON EC1R 3AU.

[illegible]

Dear Yob
I expect you've had billions of letters replying to Tanya's letter in issue 22. Stu I thought I'd write with my thoughts on her 'sexist and homophobic' complaints. I can't help but think 'does it really matter?' I mean how many people actually buy games depending on who you rescue and how they dress? Video games are there to be enjoyed, not as a platform for political arguments. Of course discrimination can creep in. For example Dee Jay in SSF 2 is just a stereotype Jamaican, always sa Lag, as if. But Tanya, how many game share storylines about killing the impending onslaught of Gay Rights activists? Sega and Nintendo seem to be fair companies, but at the end of the day, they are in business and want to make money. So while homo sexuality is still very much a minority, it's bound to take a back seat in games development. Not because developers are fascist llomophobic grits, but because right now the demand for gay heroes simply doesn't exist. Anyway where does it suggest that Ryu and Chun-Li are actually straight? What I really want to say is, sit down,



▲ By Golly, it's Reuger-X in his shiny livery. Hi he Stougun Pengeh,

chill out, and enjoy the games. We don't need this squabbling. Nuff said?
Jon Beveridge, Hastings
YOB:Is this just me, or is this pretty irrelevent? All I can see are a few readers' pants filling with rusty water about something that doesn't have any relevence to the gameplay. I think the Japanese are a lot more relaxed about this. In their games, pubescent girlies regularly get the hots for little furry creatures and no one kicks up a stink about that.

[illegible]

Dear Yob
This isn't really a letter to you, but rather to all the employees of Mean Machines and Sega Mag. You people are always preaching to us about how terribly hard you work, and what a long and arduous task it is creating a mag. If this is the case, then explain why you make references to TV programmes on in the middle of the day (eg. The Mighty Morphing Power Rangers). Also how do you test entries for the Vinyl Insult? I reckon you spend half of your time slouching, watching TV, and listening to music.
Bradley, Milton
YOB:The compulsory working day starts with Anne and Nick, A Country Practice and we try and catch that 'Scene' Schools' programme on sex education whenever it's on. Funnily enough, we test the 'Vinyl Insult' CDs on Gus' Multi-media Mac CD, log pants.

[illegible] CONTENT

Dear Yob
I think your mag is completely fab. I think it is so good that you are worthy enough to give me a copy of Virtua Racing.
Chris Dalgliesh, Dumfrieshire
YOB:I'd rather reem a rodent, Senor, than geev you a free game.

to be superceded in less than a year I believe this can best be described in a 'cryptic' sort of way. Let's imagine that 16-Bit technology is based on the third step of a staircase, and that 32-bit technology is based on the sixth step. Well what Sega are trying to do in order to bridge the gap, is take one step at a time but are charging the consumer substantial amounts of money for the privilege. Take the Mega-CD not quite 32-bit technology is it? Yet Sega are prepared to charge £270 for a limited add on. Now to climb the next step another add-on is on the way. This boasts 32 bit technology but not quite Saturn quality. What's more to lure existing Mega-CD owners, Sega claim this add-on will offer VHS quality FMV. In contrast, Nintendo intend to progress to beyond the sixth step with 64-bit technology without any 'in-between' malarkey, and it only costs £200. What are Sega playing at?

Christopher Quigley, Co. Armagh

YOB:Are you this Chris Quigley from my old school? We called him 'Christi-flairs' because of his sad crimplene legwear. You certainly sound the same. Oh well, basically Sega owners have that horrible thing called choice. They can have Megadrives, (cheaper) Mega-CDs and now a 32-bit upgrade without having to shell out the £500 the Saturn is expected to cost. How dreadful! I'm sure the majority would much rather sit waiting on a bent finger like you for machines that have no actual screenshots or even a finished design. It's a bit like choosing to go to Spain on holiday now, or sitting tight until flights to Venus become available.

▲ Ok grandma, what long legs you have. Drawn by Thomas Turney, Tarporley.

Dear Yob

I'm a bit confused regarding the number of different machines Sega are releasing. Okay there's the Saturn, Megadrive 32, Mars CDX, and God knows what else. I know Sega are trying to take the initiative in bringing us the latest technology, but personally I think they should set their sights on one machine. In doing so, they could spend considerable time developing the ultimate games system, instead of releasing pointless add-ons that are going made out of cardboard! The box artwork for Star Wars is just a couple of B-Wings and an explosion in orange technicolour. Let's hope that the game are better than the boxes. And if the Megadrive 32 needs an additional power supply, Mega-CD owners will have three of the sodding things! Each one should really have its individual socket for safety. All of this and no Daytona. Tragic. By the way, A. Camel was right, you do look like Freddy Starr!

Head of Protoplasmic Research, Planet Z

YOB:It's Freddie Starr. And the box artwork you saw was the US version. Which no one else is giving a second thought to at the moment, probably because they have friends and no odour problems. It's the game I'm more concerned about. It's meant to be based on the Virtua Star Wars coin-op, which I completed in three credits!

Dear Yob

Oh, thank you Mr Yobi. Thank you! You've brought immense joy to my existence yet again. You'd never believe how long I've waited for a Dr Who game, and along comes Mean Machines and announces that Sega are working on one right this minute. Hurrah and huzzah for the world's most intriguing magazine. Sega had better not mess it up, that's all. And now, a highly amusing joke for your entertainment.

Captain Picard – "What machine is that, Mr Worf?"

Worf – "It's got a needle and thread. It's a genuine Singer, Captain!"

Picard – "Make it sew!"

Ha, ha, ha. Good, eh?

Paul Johnson, Skegness

YOB:Terrible sorry, sir, but 'm going to 'ave to escort you from the premises. Y'see, you're not very funny and there's been a few complaints from the other readers. Out you go mate! And don't bother comin' back!

▲ John Watson, Eastbourne, has got the right Answer.

Dear Yob

Am I the only one on console-worshipping Planet Z (and Earth as well) who thinks that the boxes for the new Megadrive 32 are rad? They look like pressie

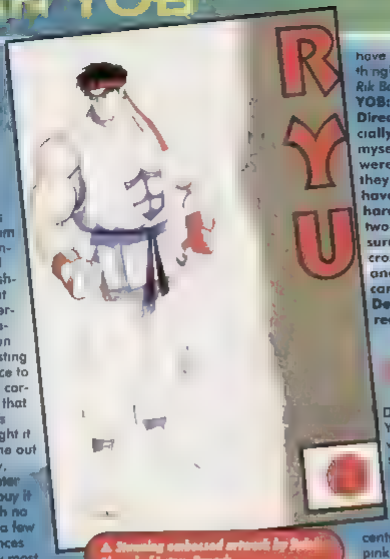
Dear Yob

I felt I had to put print-head to fan-fold to bring up a point which no-one seems to have picked up on (or they're keeping quiet about it). This point is that a great many software manufacturers keep releasing updated versions of their existing titles. A prime example is EA with their seemingly neverending re-tweaks

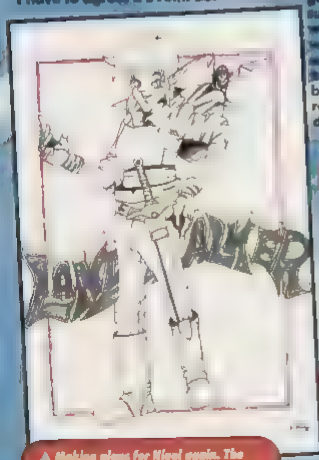
of John Madden/Bill Walsh, EA Hockey, Lakers vs Celtics, Road Rash, PGA Golf, etc. Now to add insult to injury they are adding five minutes of FMV to their titles and releasing them on CD! Quite honestly I don't mind the endless rehashes, but wouldn't it be a stonking exercise in public relations and common sense to give existing owners the chance to trade in their old cartridges? A game that springs to mind is Flashback. I bought it as soon as it came out on cart, and now, twelve months later they want us to buy it again on CD with no extra game and a few new FMV sequences thrown in. Surely most people will have a copy by now. The only people who won't have a copy will be new to Megadrive, and if they've any sense they'll buy the discounted cart after the release of the CD. Can you make any sense out of this situation?

Shaun Davies, Barnsley

I have to agree, it's rum. But that is something we've made clear in our reviews. CD versions are usually only for those who want to get the little extra benefit the Mega-CD offers, when they don't already have the original. And the software companies get a little more exposure for their games, which normally have very short shelf lives as carts. It's mutually beneficial like that, but it should never replace original developments.



Stunning embossed artwork by Robert Abbott of Luton. Superb.



Making plans for Nigel again. The first looked here by Will '94.

I WOULD'VE WON THE THREE

Dear Yob

Are you losing your touch? You don't insult people as much nowadays. I don't think the 'worried' mother was very insulted by your John Major-esque answer. In the reply you should have called her a fat, old, grey, wrinkly, technophobic, old fashioned ball of fungi covered mucus. A few months back, you probably would have done. Are you ill or something?

Rik Balboaer, Derbyshire

YOB:It's all down to EC Directive 134/Z2 which officially stated that people like myself and Viz magazine were "not to be as funny as they used to be". Now that I have to comply, I find it really hard to take the ps out of twonks like you. Take your surname — you sound like a cross between a nutty log and a monkey's ass. But if I can't put down saddoes in Derbyshire, there's no hope really, is there?**

[redacted]

Dear Yob

You're a pathetic drawing whoever drew you should be strangled. How you come to be in Mean Machines, God only knows! My colleagues and I feel that you need a new image, flat hair with a centre parting, and a nice frilly pink frock. Less of this dribble wimpe pop pap time to get down to the nitty gritty. I know your secret. You are a N-bletion baby. If you don't admit it, I'll er um, make you sleep with my English teacher Mrs Haggis!

Charlie Whizz-Pop, Chiang Wigie

YOB:I am not a drawing! I am a free man! I already wear silky lingerie — the stuff you sent me that smells of haddock. I feel wonderful when I wear it. I think of you..

[redacted]

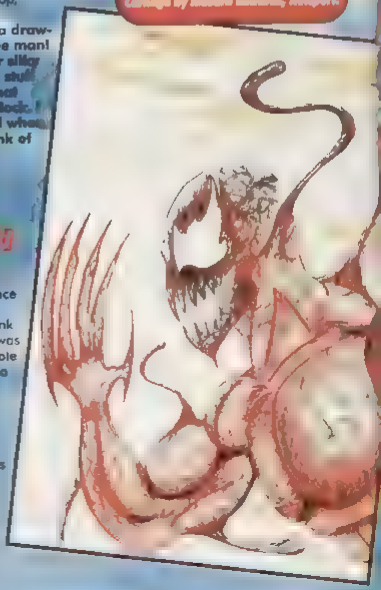
Dear Yob

Oh the innocence of youth. And there I was, thinking that Guile was a mature sensible sort of man who would never insult people when he could just as easily beat them up. Obviously I was wrong. For the benefit of Guile and other males, please let me explain my affection for Yob. Potato head? Indeed, no, no. A firm jaw, and no nose, an attractive feature on a man. And a midget you say? Oh dear me, you poor misguided child. Ask any woman in the world if she finds Ronnie Corbett attractive and she will answer "Yes Guile I do indeed" in a most fervent manner. Steel clad, don't all women love a man daring enough to sport the latest Paris catwalk fashions? Tall, blonde, and handsome is no longer what women want. Overmoist lips and heavy brow is the man of the nineties. I enclose a match, do with it what you will. It symbolises the flames of our passion. I live Yob!

Helen, Rossendale

YOB:There seems to be some confusion over my height. I'm not one of the Ginster's men, though I do have a well-filled pasty. Thick set is the most accurate description for me. But after her last letter, I have to tread very carefully where Helen's concerned. I got some stick from Yobena about it, and believe you me, you don't give that woman a pointed object if you can help it. But ta for the match, anyway.

Mad as my theory packs this. Carnage by Richard Edwards, Newport.



SEGA MAGAZINE: the only magazine for the discerning Sega player. Only we know exactly what you want from a magazine. Only we have the contacts necessary to bring what you want to the printed page. Take a look at the latest issue, for example...

1. MICKEY MANIA!

Sony and Psygnosis team up to bring some of the most outstanding graphics ever to the Megadrive. It looks astounding, and we have it first.

2. MEGADRIVE 32X!

Only SEGA MAGAZINE has the resources to bring you eight packed pages of 32X-clusive gear. Star Wars, Virtua Racing, Metal Head... we've seen these projects and talked to the men responsible for them. PLUS! Latest news on Doom straight from the creators, id software!

3. CAPCOM EXCLUSIVE!

We all know that Capcom are responsible for some of the greatest videogames ever created. We have full access to their latest line-up of top-quality products - Megaman: The Wily Wars and The Punisher. They're both in SEGA MAG - exclusively!

4. MORTAL KOMBAT II

The ultimate in coverage for what is shaping up to be the most incredible "kombat" game ever. Check out our eight page feature plus Megadrive AND Game Gear reviews!

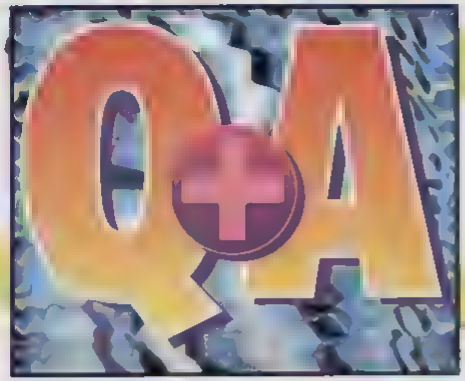
5. MORE TOP REVIEWS

A vast line-up of games are put through their paces in the latest issue. Included: Formula One: Beyond the Limits, Mario Andretti, The Animals, Brutal, Zero Tolerance AND Rebel Assault... plus more!

So, it's all rather exciting then, really, isn't it?

SEGA MAGAZINE: Issue 1, out September 11. The price is a mere £2.25.

SEGA
MAGAZINE
BRITAIN'S ONLY OFFICIAL SEGA MAGAZINE



I'm fair cheesed off this month when I hear that Pierce Brosnan is about to start filming the new Bond movie Goldeneye. It should have been me, shouldn't it? Never in the annals of magazine publishing has an editor ever looked so Bond-esque. I even wore a dinner suit to the last industry dinner. The compensation is that I and my assistant, Pussy Galore, are now in charge of the Mega mag question and answer page around. And another (completely unrelated) space-filling thing. Why does Chris Evans think he can just jump the queue at Cheesington or wherever, just because he's there with Rachel Tatton Brown? It's a bloody liberty, and one we won't forget when he's slipped down the slimy light entertainment dumper. Watch out for Gaby, mate. Send your calls for aid to THE VEGAS CHAPEL OF LOVE Q&A, PRIORY COURT, 30-32 FARRINGDON LANE, LONDON EC1R 3AU

JOHN BELUSHI

Dear Steve
I have a few questions that I desperate y need answering...
1 How do you expect mere mortals like myself to afford (undoubtedly classy) games like Virtua Racing, which are a completely unfeasible £70?
2 Are there any good games planned for the new fangled Sega Mouse and if so, what are they?
3 What makes Pete Sampras better than Davis Cup, 'cos I didn't read the review?
4 Any more news on Whirlwind Snooker?
5 Being a bit of a cricket nut, I was wondering if anything would be arriving on the Megadrive, Graham Gooch for example?
6 Why should I pay £150-odd for the Megadrive 32? How much are the games go ga to cost for this thing?
7 Has anyone been reprimanded for his/her errors on pages 90 and 91 of last month's issue?
Alex Jones, Bournemouth
STEVE:1. The usual. Saving, ram-raiding, flashing for 10 bob a peek. 2. No specific mouse games, but it should link in with strategy titles. 3. More playable, faster paced. 4 No 5. No. 6. £50-£60. 7. Claire and Gus both got spanked bottoms. Claire, because she forgot to add clipping paths; Gus, because he likes it.

JANIS JOPLIN

Dear Steve
Please could you answer my questions for me as I've written in many times but never had my letter printed in your brill mag.
1 Will SSF 2 on the Megadrive be the Turbo version?
2. Will a sequel to Dungeons and Dragons be released?
3 I heard a rumour of a 16-Bit Sega handheld, is this true?
4 Who are your fave characters in SSF 2 and MK 2?
H W Yip, London
STEVE 1. **It's not, but a secret Turbo mode is rumoured to be included. 2 Nya! 3 Eventually. 4. Ken (yawn) Baroko.**

KURT COBAIN

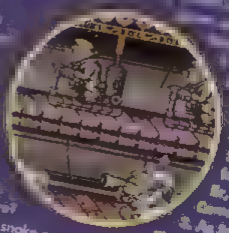
Dear Steve
I have a few questions about the Megadrive 32
1 When will it be released?
2 Will it use J-Carts, or 4 Way Play adaptors?
3 Will it increase the number of colours on screen?
4 Will it improve the sound quality?
5 Will it produce FMV, if so how good will it be?
6 What size will the carts be, eg 24-Bit, 32-Bit?
7 Who are producing the games for the system?
Alistair Meek, Burnham-on-Sea, Somerset
STEVE:1. November. 2. No. 3. Yes. 4. Yes. 5. Not on its own, but it improves the Mega-CDs'. 6. 16-32Megs. 7. Sega, Acclaim, Sony, Konami, Accolade etc.

TENNESSEE WILLIAMS

Dear Steve
Please answer my questions.
1 Is Virtua Racing Deluxe coming to the Megadrive 32, and should I get Virtua Racing for the Megadrive?
2 Will Operation Wolf and Operation

JIM MORRISON

Dear Steve
Oh great one please answer my humble questions:
1. Will the arcade version of the Punisher on the Megadrive?
2. Are there any snake games on the Megadrive?
3. When should Rocket Knight Returns come on the Megadrive?



...2. Bi, tri, Quattro... 3. As Sparkster for Christmas. 4. Battleship. 5. Very good.

Thunderbolt ever come out for the Megadrive?
3 We know that two awesome racing games are coming to the Megadrive 32. Are there any others planned?
Oz Downson, Kendal, Cumbria
STEVE:1. If you can wait, get Deluxe. 2. No. 3. Motocross, which is alledgedly awesome.

MARILYN MONROE

Dear Steve
Could you please answer these questions about MK 2?
1 Is it true that if you hold one of the buttons for 30 seconds without getting hit, you will morph into Goro?
2 I heard if you use just high punch and uppercuts in the first round and low kicks in the second, you will fight against Sonya is this true?
3 Is it true that there are three hidden characters?
4 My friend said that he did a cheat where you can morph into anyone, is this possible?
Tristan Kinslow, Kent
STEVE 1. No 2. No. 3. Yes. 4. If you play as Shang Tsung

RIVER PHEONIX

Dear Steve
I have a couple of questions about EA games. Some Megadrive games were late getting to the shops and I was wondering when they would be released. Also I read in the Aspect Advance game that you said was due out in February?
2 Are EA planning on doing Incredible Hulk on the Megadrive?
3 Are EA planning on doing any other games with Games Workshop?
Simon Jones, Bamber Bridge
STEVE:1. It's been dumped. 2. No, begorrah! 3. None are slated for release.

JIMMY HENDRIX

Dear Steve
Firstly, I want to congratulate you on your very nice magazine
The reason I'm writing is that I have a few weird problems with the CD version of Mortal Kombat
1 During the game there are a few moments where there is a sort of click noise why?
2 Also there are short breaks in the game, ie before and after the 'Finish Him' message
3 The weirdest problem is when you play against Shang Tsung, long interruptions occur when he changes into another character, and during these interruptions he appears as a blur
Could you please explain these rather odd problems?
Franck Dave, Schelle, Belgium
STEVE:The CD version of Mortal Kombat was found to have a hideous bug in the final confrontation. If your copy is one of those affected, I'd get in contact with Acclaim about it.

LEWIS CARROLL

Dear Steve
I own a [illegible] some questions answered.
1. Will [illegible] for the Mega-CD?
2. Will a game be released for MK 2?
3. Is SOR 3 worth buying?
4. Will any more sports titles, such as PIFA and Flashback, be released as

[illegible] questions for the Mega 32?
[illegible], Alloa, Clackmannanshire. 2. [illegible] 3 [illegible] fan of [illegible] 4. [illegible] is a [illegible] PIFA

sive role playing game for the Mega-CD, using all of its storage capacity?
2. I love the Outrun coin-op. Will it come out for the Megadrive 32?
3. Are there anymore Terminator games planned for any system?
4 Will Core ever make a Thunderhawk 2 or something similar?
5 Is Chuck Rally any good? Is it better than Mario Kart?
Colin Livingstone, St Brelade, Jersey
STEVE:1. Lunar Silver Star is that very game and Shining Force CD 2. Not the original. 3. No! 4. Battlecorps is sort of similar. 5. Too early to say. It's now called BC Racer

BERLIOZ

Dear Steve
Please answer
1 When will Demolition Man CD be coming out?
2 Is there going to be a cart version?
3 How much will they cost?
4 Will we see Virtua Fighters on any format?
Karen Wilcocks, Chesire
STEVE:1. Tragically, it's been dumped. 2 Yeah. 3. Lots of money. 4. Only on Saturn. 32X gets its own robot fighting game.

LIZA MINNELLI

Dear Steve
Put your loaf to good use, stop lazing about in the sun, and answer my questions
1 Are there any plans for a mas

This bit is called the endpiece. Sounds a bit rude, doesn't it? Flashing the word 'endpiece' about the place could get a mag closed down. Anyway, an endpiece is a bit of anomaly. A bit like your appendix, with no real function, but you can use it to say 'see ya next month', and swallowed chewing gum won't stick to it and kill you. Byeee!

MYSTIC REG'S NEXT Month

HONESTY
INTEGRITY
QUALITY

A GREAT PRICE FOR A GREAT MAGAZINE

€ 2.25

November Issue, 1994 £2.25 A Far Superior circulatin figure.

Your destiny is written in the stars. We are but cosmic microbes within what could be the vast test tube of life. As such, let us see what the nutty professors overseeing us have in store...

SISTER MARIA LOUISA OF THE GOLDEN GRAHAM ADDS:

Sega owners of the world, listen or perish. The crashing of many comets on Jupiter signifies the end of the world, and many magazines shrivel and die. But chin up, MEAN MACHINES SEGA is a right rivveting read and will be so eter-

AQUARIUS (Jan 21 — Feb 19)
A time of change. The sun passing through Jupiter indicates a peroid of unsettled feelings await. A lucky herring marked with the sign of a distant relation could bring a pools win your way. Perhaps. Destiny draws you to a magazine with the initials M, M and S.

PISCES (Feb 20 — March 20)
A time of change. A face you have seen for several years will appear on your doorstep. A dripping tap could prelude household repairs if the plug isn't removed. A packet of broken biscuits leads to new, exciting love.

ARIES (March 21 — April 20)
A time of change. A horde of tiny suicidal creatures is set to invade your video game system. Again. The words 'Exclusive' and 'Review' will feature heavily for you a month from now. A man offering sweets could lead to rotten teeth.

TAURUS (April 21 — May 21)
A time of change. A long distance love may come to an early end, unless it doesn't. A contretemps with a person in authority or the murder of a loved one could result in a peroid of solitude. Fate belongs to those with tandems. Someone with rotten teeth could lead you to a dentist.

GEMINI (May 22 — June 21)
A time of change. There will be Maximum Carnage in the country's leading Sega magazine which will influence a buying decision. A rare floral hybrid unveils destiny's plans for love and finance. But it's time to be cruel to be kind.

CANCER (June 22 — July 23)
A time of change. An early morning invites a meeting with a man stashing bottles in a strange vehicle. A delicate dietry problem could result in a warm feeling which repels a love aspect. A dentist could offer you rotten sweets.

LEO (July 24 — Aug 23)
A time of change. An item of loose clothing on an escalator will keep you hanging around. A root vegetable in an all-too familiar shape may win your affections, but such love is doomed. Those in urban areas should strike first.

VIRGO (Aug 24 — Sept 23)
A time of change. Your natural brilliance and modesty sees you being the best at everything. Right now anything you want is yours. But beware of a cat with one pink eye. It's arrival leads to a time of grief for loved ones. A rotten dentist can lead you to no teeth.

LIBRA (Sept 24 — Oct 23)
A time of change. A three-wheeled vehicle leads to mocking from those around you. Your new-found luck will impress those around you, but not for long. Those of you with out-moded consoles will enter Kombat. Again.

SCORPIO (Oct 24 — Nov 22)
A time of change. Parental guidance is required at a nearby picture house. A moody friend is hiding a cash secret. Help and a reward is yours. A legacy awaits its rightful owner within the epilogue of a favourite novel. But be careful. Oh, and someone's boffing your wife.

SAGITTARIUS (Nov 23 — Dec 21)
A time of change. Important news from overseas will rekindle an old flame. A bearded pet's regular complaint could lead you to a new, but volatile, relationship. Deep Space Nine also waits those owning 'Mega' and 'Drives.'

CAPRICORN (Dec 22 — Jan 20)
A time of change. A fit of pique leads to a time of family grief. Mood swings lead to the discovery of lost relatives in a public garden. A silver spoon promotes healthy growth in a small child. A man with no teeth will lead you to a place of old people.

REG'S PSYCHIC MEDIUM WAVE
+ Nev of Northampton: Your love is returned + Gaby of Leeds: The game based on the new De Niro film is imminent + Keith of Havant: She never loved you. Die + William of Kilburn: Fish secret awaits in next door's bin + Andrew of Oldham: Ecco will return in a month + Angel of Glasgow: Your legacy is a stain on the pub wall. + Karen of Braintree: You have a moustache, but everyone's too embarrassed to tell you.

AND IT'S OUT ON THE 30TH SEPTEMBER!

MEGADRIVE & MEGA CD DEALS

ALL OFFICIAL GENUINE UK VERSIONS

FOR A PIXEL PERFECT PICTURE CHOOSE A SCART TELEVISION

MEGA MACHINES

Have you got enough mates?

J-CART

FOUR PLAYER POWER

Codemasters' **J-CART** is the world's only video games cartridge that gives you simultaneous **four-player action instantly.** You don't need anything, - so you can **forget adaptors.** It's all there. With two built-in joypad connectors, just slam two joypads into the J-CART, the usual pair in the console and get ready for an **adrenaline-pumping four-player challenge game.**

The question is... have you really got enough mates?
